SIGHTLINES GEL EAR PAD ADAPTER PLATES W/ADHESIVE BACKING

Noisefighters® Sightlines Gel Ear Pads – with patented relief cut for glasses arms to slide through to prevent headaches and reduce noise Upgrade your headset experience with Noisefighters Sightlines gel ear pads. Made in the USA, these innovative replacement pads feature a patented relief cut feature that allows your glasses to pass through comfortably, eliminating the frustration of headset pressure on your frames. Crafted from premium silicone gel and polyurethane materials, they provide superior noise isolation and long-lasting cushioning for extended wear. Compatible with most popular headsets, these versatile ear pads offer a customized fit and enhanced comfort. Whether you are sport shooting, operating machinery, or enjoying your favorite tunes, Noisefighters Sightlines ensure an immersive audio experience without compromising your hearing or comfort. Upgrade your hearing protection today and experience the difference. Their design features a rim to slide under the clips on headsets like Howard Leight® Impact Sport plus a non-permanent, pressure-sensitive adhesive for a much more secure fit and peel + stick compatibility with their optional snap-in plastic adapter plates to fit headsets from dozens of manufacturers. This model is also compatible with any headset that utilizes oval pads that are 4" tall x 3" wide and allow users to peel off / remove their original pads and apply new adhesive-backed pads. Their gel ear pads are 0.625" thick. HERE ARE THE COMPATIBLE HEADSETS USING EITHER THE ADHESIVE BACKING OR THE INCLUDED ADAPTER PLATES: 3M™

WorkTunes™ Wireless / Bluetooth model (please additionally purchase their Peltor™ ComTac™ style cloned adapter plates if you own the old-style WorkTunes™ headset that only has an AM/FM radio) - 3M™ Peltor™ RangeGuard™ - 3M™ Peltor™ Sport Tactical 100 / 300 / 500 - Awesafe® GF01 - Axil® / Sportear® Trackr™ (Including BLU) - Caldwell® E-Max (standard and low-profile) - GLORYFIRE™ M8056T - Howard Leight® Impact® Sport (including Bolt® version) - Howard Leight® Impact® Pro - Howard Leight® Lightning® - Howard Leight® Sync® - Howard Leight® Verishield - Howard Leight® Viking® - ISOtunes LINK 1.0, LINK 2.0, LINK Aware, DEFY - Kask® SC1 / SC2 / SC3 - Mpow® Noise Reduction Safety Ear Muffs - NoiseBuster® PA4000, PA4100, and PA4200 - Ops-Core® AMP® (note: outer lip may overlap and can be removed with knife / scissors, but this is only an aesthetic issue) - Otto® NoiseBarrier® Range SA and TAC - Peltor™ RangeGuard™ and Peltor™ Sport Tactical™ 100 / 300 / 500 - Pro Ears® - multiple models compatible; customer must verify that their original pads can be peeled off and their oval 3 x 4" pads can be glued on - Radians® - multiple models compatible; customer must verify that their original pads can be peeled off and their oval 3 x 4" pads can be glued on - Savior Equipment® Apollo - (existing pads can be peeled off the existing plastic plate and residue cleaned up, and new pads can be applied, but we instead recommend additionally purchasing their AD108 Sightlines with Adapter Plates for Savior® Apollo and similar headsets due to the improvement in secure mounting) - TR Industrial® Forestry Safety Helmet and Hearing Protection System - Walker's Game Ear® FireMax® (requires cutting off original pads and reusing the factory-installed plastic plates) - Walker's Game Ear® Recon® (requires cutting off original pads and reusing the factory-installed plastic plates) - Winchester® Passive Folding Earmuffs / Low Pro Passive Folding Earmuffs Noisefighters is in no way

affiliated with 3M Peltor® (or any other headset manufacturer) and they have not been involved in the development, manufacturing, labeling, testing, or certification of any Noisefighters products. 3M Peltor has stated that modifying their headsets may negatively impact sound attenuation and it makes the 40 CF 211 Subpart B noise reduction rating inapplicable. FEATURES: Comfort for Glasses Wearers: A patented relief cut, these pads allow glasses to pass through comfortably Fully compatible with headsets from Howard Leight®, 3M Peltor®, Ops-Core®, Sordin®, Walker's Game Ear®, and other headsets by installing optional adapter plates; please see attached images for compatibility information The adhesive is non-permanent, and pads can be removed dozens of times, or even swapped between headsets, without degrading the bonding strength Designed, manufactured, and assembled in the USA and covered by a one-year unconditional warranty Noisefighters® is a combat veteran owned company

SIGHTLINES GEL EAR PAD ADAPTER PLATES

SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the Noisefighters SIGHTLINES Gel Ear Pad Adapter Plates. These ear pads are designed to enhance your headset experience by providing superior comfort and noise isolation. This guide provides important safety information and instructions to ensure the safe and effective use of your product.

General Safety Guidelines

- Ensure the ear pads are compatible with your headset model before installation.
- Regularly check the condition of the ear pads for signs of wear or damage.
- If the adhesive backing loses its effectiveness, replace the ear pads immediately to maintain a secure fit.
- Do not modify the ear pads or the headset in any way that could compromise safety.
- Keep the product out of reach of children to prevent accidental misuse or choking hazards.
- If you experience any discomfort while using the ear pads, discontinue use and consult a professional.

Specific Safety Precautions for Use

- **Comfort for Glasses Wearers:** The patented relief cut allows glasses to pass through comfortably. Ensure your glasses fit properly with the ear pads to avoid discomfort.
- **Check Compatibility:** Verify that your headset is listed in the compatibility section before use to ensure proper fit and functionality.
- **Adhesive Backing:** The adhesive is designed to be nonpermanent. Avoid excessive force when removing or repositioning the ear pads to prevent damage to both the pads and the headset.
- **Avoid Moisture:** Keep the ear pads dry and avoid exposure to moisture, which can affect the adhesive and material integrity.
- **Regular Maintenance:** Clean the ear pads regularly with a damp cloth to maintain hygiene and performance.

Instructions for Installation and Usage

1. **Preparation:** Ensure that your headset is clean and free of any debris or residue from previous ear pads.
2. **Removal of Old Pads:** Carefully peel off the existing ear pads from your headset. If necessary, clean the surface to remove any adhesive residue.
3. **Applying New Pads:**
 - Align the new SIGHTLINES Gel Ear Pad with the headset.
 - Press firmly to ensure the adhesive backing adheres properly.
 - For headsets using adapter plates, attach the plates to the headset as per the manufacturer's instructions.
4. **Testing Fit:** After installation, wear the headset to ensure a comfortable fit. Adjust as necessary.
5. **Usage:** Use the headset as intended, ensuring that the ear pads remain securely attached during use.

Disposal Instructions

- Dispose of the ear pads in accordance with local waste management regulations.
- Do not dispose of the ear pads in regular household waste if they are made from materials that require special disposal methods.
- Consider recycling options if available in your area.

Contact Information for Further Support

For safety inquiries, product support, or to report unsafe products, please contact the relevant authorities or consumer support in your country.

Thank you for prioritizing safety and comfort with your Noisefighters SIGHTLINES Gel Ear Pad Adapter Plates. Enjoy your enhanced listening experience!
