

SWITCHBACK S BACKUP FLASHLIGHT RING FOR SUREFIRE EDC BLACK

SWITCHBACK S BACKUP FLASHLIGHT RING FOR SUREFIRE EDC The SwitchBack® S Backup Flashlight Ring turns your Surefire® compact flashlight into a flexible tactical tool. They have improved on their original design to fit the EDC models without a flared lanyard shroud, while remaining compatible with most Surefire E-Series legacy Backup flashlights. The SwitchBack S Backup Flashlight Ring enhances your compact flashlight, optimizing ergonomics for searching and shooting. FEATURES: Securely mounts between the tailcap and body of the flashlight. Rigid retention ring helps reliably deploy and index flashlight from both pockets and pouches. Shoot using a natural two-handed grip (the SwitchBack Technique). Employ all traditional low-light techniques such as Neck Index, Modified FBI, and Harries. Positively retain the light when drawing a firearm, reloading, and malfunction clearance. The SwitchBack S Backup comes with two O-rings. The SwitchBack S Backup is not compatible with lights larger than 0.830 inches (2.1082 cm) in diameter.

SWITCHBACK S BACKUP FLASHLIGHT RING Safety Instructions

Introduction

Thank you for choosing the SWITCHBACK S Backup Flashlight Ring for your Surefire EDC flashlight. This product is designed to enhance the functionality and ergonomics of your flashlight, making it a versatile tool for tactical use. It is important to follow the safety guidelines outlined in this document to ensure safe and effective use of the product.

General Safety Guidelines

- Always use the flashlight ring as intended. Misuse may result in injury or damage to the product.
- Keep the flashlight ring out of reach of children and vulnerable individuals.
- Regularly inspect the flashlight and the ring for any signs of wear or damage.
- Do not modify the flashlight or the ring in any way that could compromise safety.
- In case of any malfunction, stop using the product immediately and seek assistance.

Specific Safety Precautions for Use

- Ensure that the flashlight is securely mounted between the tailcap and body of the flashlight.
- Use the rigid retention ring to reliably deploy and index the flashlight from pockets and pouches.
- When shooting, use a natural twohanded grip to maintain control and accuracy.
- Familiarize yourself with traditional lowlight techniques such as Neck Index, Modified FBI, and Harries to enhance safety and effectiveness.
- Always positively retain the light when drawing a firearm, reloading, or clearing malfunctions to prevent accidents.

Instructions for Installation and Usage

1. Installation:

- Remove the tailcap of your Surefire EDC flashlight.
- Slide the SWITCHBACK S Backup Flashlight Ring onto the body of the flashlight.
- Reattach the tailcap, ensuring that the ring is securely in place.
- Confirm that the flashlight operates correctly before use.

2. Usage:

- Grip the flashlight with both hands, employing the SwitchBack Technique for optimal control.
- Practice using the flashlight in lowlight conditions to become familiar with its operation.
- Use the flashlight ring to assist in drawing the flashlight smoothly from pockets or pouches.

Disposal Instructions

- Dispose of the SWITCHBACK S Backup Flashlight Ring in accordance with local regulations for electronic waste.
- Do not dispose of the product in regular household waste.
- Consider recycling options available in your area.

Contact Information for Further Support

For further assistance or inquiries regarding safety concerns, please refer to the manufacturer's contact details provided with your product packaging or visit the official website.

By following these safety instructions, you can ensure a safe and effective experience with your SWITCHBACK S Backup Flashlight Ring. Thank you for your attention to safety, and enjoy using your enhanced flashlight!
