

SWITCHBACK 2.0 LARGE FLASHLIGHT RING WITH POCKET CLIP - THYRM LLC SWITCHBACK2.0 LARGE FLASHLIGHT RING W/POCKET CLIP URBAN GRAY

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

SWITCHBACK 2.0 LARGE FLASHLIGHT RING WITH POCKET CLIP The SwitchBack® 2.0 adds a multi-function finger ring and robust pocket clip to your tactical flashlight. It mounts securely between the light's tailcap and body, providing a repeatable grip index during deployment from pocket or pouch, and enhances ergonomics while shooting or searching. The SwitchBack® 2.0 is the next evolution in the innovative SwitchBack Flashlight Ring product line. It incorporates new features and refinements based on thousands of hours of use by our subject matter experts and customers. The SwitchBack mounts between the tailcap and body of your flashlight, making it secure regardless of impact, moisture, and heat/cold changes. **FEATURES:** SwitchBacks can be used with handguns or long guns. It allows the user to: Reliably deploy and index a flashlight from both pockets and pouches, using the SwitchBack's rigid, but releasable, retention ring. Shoot using a natural two-handed grip (the SwitchBack Technique). Employ all traditional low-light techniques such as Neck Index, Modified FBI, and Harries. Positively retain the light when drawing a firearm, reloading, and addressing a malfunction. The SwitchBack provides fast deployment and enhanced retention during many activities such as climbing, backpacking, car and home maintenance, and self-defense. New for SwitchBack 2.0: A finger ring that releases under heavy force/torque but can be reset. A stronger pocket clip that also works with MOLLE/PALS webbing. A pocket clip position that allows for slightly deeper carry than the SwitchBack® Large (original). A tubular portion that is cut lower to allow grip on both sides of the tail-cap during installation. A wider thumb rest with traction features. Small crush ribs on the SwitchBack 2.0's lip that create a custom fit across a broader range of lights. An aluminum spacer that expands compatibility to Streamlight HL and HL-X flashlights and other manufacturers with similar designs. **Installation** For installation, first try installing the SwitchBack on your light without use of the O-ring or aluminum washer. Simply unscrew the tailcap, add the SwitchBack, and rescrew the tailcap back on. If the light does not activate upon use of the tailcap switch with the SwitchBack installed, try installing the aluminum washer as shown in the diagram below. Streamlight models tend to require the aluminum washer, but may not, depending on the tailcap features of the light. Elzetta and Surefire models do not usually require the aluminum washer, but users may find that addition of the rubber O-ring will help to stabilize the position of the SwitchBack

Attributes

SWITCHBACK 2.0 LARGE FLASHLIGHT RING WITH POCKET CLIP Safety Instruction Guide

Introduction

Thank you for choosing the SwitchBack 2.0 Large Flashlight Ring with Pocket Clip. This product is designed to enhance the functionality of your tactical flashlight while ensuring safety during use. Please read this safety instruction guide carefully to understand how to use, install, and dispose of the product safely.

General Safety Guidelines

- Always ensure that the SwitchBack 2.0 is installed correctly on your flashlight before use.
- Regularly inspect the product for any signs of wear or damage. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals.
- Avoid using the flashlight in potentially hazardous environments where the light may cause distractions or hazards.
- Report any unsafe experiences or accidents involving the product to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the flashlight is turned off before installing or removing the SwitchBack 2.0.
- When using the flashlight with the SwitchBack, maintain a firm grip to avoid accidental drops.
- Be cautious of the retention ring; it is designed to release under heavy force but can be reset. Ensure it is functioning properly before use.
- Use the SwitchBack Technique for a natural twohanded grip to minimize the risk of dropping the flashlight.
- When carrying the flashlight with the SwitchBack in your pocket, ensure that the pocket clip is securely attached to avoid accidental detachment.

Instructions for Installation and Usage

1. Installation:

- Unscrew the tailcap of your flashlight.
- Place the SwitchBack 2.0 between the tailcap and the body of the flashlight.
- Rescrew the tailcap back onto the flashlight.
- If the flashlight does not activate with the tailcap switch, try adding the aluminum washer as needed, particularly for Streamlight models.
- Ensure that the installation is secure and that the SwitchBack is properly positioned.

2. Usage:

- To deploy the flashlight, grip the SwitchBack firmly and pull it from your pocket or pouch.
- Utilize the retention ring for secure handling during shooting or searching.
- Practice using the SwitchBack Technique for effective twohanded operation.
- Regularly check the position of the pocket clip to ensure it remains secure during use.

Disposal Instructions

- Dispose of the SwitchBack 2.0 in accordance with local regulations for electronic waste.
- Do not dispose of the product in regular household waste.
- Remove any batteries from the flashlight before disposal and recycle them according to local guidelines.

Contact Information for Further Support

For any safety inquiries or support regarding the SwitchBack 2.0, please refer to the contact information provided by the manufacturer or retailer.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities. Enjoy using your SwitchBack 2.0!
