

SWITCHBACK DF FLASHLIGHT RING WITH POCKET CLIP - SWITCHBACK DF FLASHLIGHT RING W/POCKET CLIP BLACK

SWITCHBACK DF FLASHLIGHT RING WITH POCKET CLIP The SwitchBack® DF adds a multi-function finger ring and robust pocket clip to SureFire's Dual Fuel Series Flashlights. It mounts securely on the light's tailcap, providing a repeatable grip index during deployment from pocket or pouch, and enhances ergonomics while shooting or searching. Featuring the same enhanced features as the SwitchBack® 2.0, the SwitchBack DF Flashlight Ring is the ergonomic upgrade your SureFire Dual Fuel tactical flashlight deserves! It features a larger opening to accept the Dual Fuel's tailcap and includes an additional lock to ensure it stays in place during hard use. **FEATURES:** Like all our SwitchBacks, it can be used with handguns or long guns, allowing the user to: Reliably deploy and index a flashlight from both pockets and pouches, using the SwitchBack's rigid, but releasable, retention ring. Shoot using a natural two-handed grip (the SwitchBack Technique). Employ all traditional low-light techniques such as Neck Index, Modified FBI, and Harries. Positively retain the light when drawing a firearm, reloading, and addressing a malfunction. The SwitchBack DF Flashlight Ring also provides fast deployment and enhanced retention during many activities such as climbing, backpacking, car and home maintenance, and self-defense. A finger ring that releases under heavy force/torque, but can be reset. A strong pocket clip that also works with MOLLE/PALS webbing. A pocket clip position that allows for slightly deeper carry than the SwitchBack® Large (original). A tubular portion that is cut lower to allow grip on both sides of the tail-cap during installation. A wide thumb rest with traction features. Small crush ribs on the SwitchBack DF's lip create a custom fit. Designed and manufactured in the USA. **Installation** For installation: Unlock the release ring and hold it below the latch on the tube of the SwitchBack; this will deflect the upper locking finger of the tube's channel. Insert the tailcap until it's seated at the bottom of the SwitchBack DF's tube. Reattach the ring to the latch on the tube: This will capture the tailcap within the SwitchBack DF; you can press the top end of it against the tailcap to help seat it. No additional washers or O-rings are needed for installation, but the SureFire O-ring should stay on the light. **Note:** You do not need to remove the tailcap from the SwitchBack during battery changes. **Caution:** When changing batteries, be sure to carefully align the tailcap and body of the flashlight and screw down the tailcap without dislodging the sealing O-ring on the body of the flashlight.

SWITCHBACK DF FLASHLIGHT RING WITH POCKET CLIP Safety Instruction Guide

Introduction

Thank you for purchasing the SwitchBack DF Flashlight Ring with Pocket Clip. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this document carefully before using the flashlight ring and retain it for future reference.

General Safety Guidelines

- Ensure that the flashlight ring is compatible with your SureFire Dual Fuel flashlight before installation.
- Always inspect the flashlight and the ring for any visible damage or wear before use.
- Keep the flashlight ring out of reach of children and vulnerable individuals to prevent accidents.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use the SwitchBack DF Flashlight Ring only as intended, following all manufacturer's instructions.
- Avoid using excessive force when installing or removing the ring to prevent damage.
- Ensure that the flashlight is securely attached to the ring during use to avoid accidental detachment.
- Do not modify or alter the flashlight ring or its components in any way.
- When using the flashlight in lowlight conditions, be aware of your surroundings to avoid potential hazards.
- Maintain a firm grip on the flashlight when drawing or reloading to prevent accidental drops or misfires.

Instructions for Installation and Usage

Installation

1. Unlock the release ring and hold it below the latch on the tube of the SwitchBack.
2. Insert the tailcap until it is seated at the bottom of the SwitchBack DF's tube.
3. Reattach the ring to the latch on the tube to capture the tailcap within the SwitchBack DF.
4. Press the top end of the ring against the tailcap to ensure it is securely seated.
5. No additional washers or Orings are needed for installation; however, the SureFire Oring should remain on the light.

Usage

- To deploy the flashlight, use the SwitchBack's rigid but releasable retention ring to easily access the light from your pocket or pouch.
- Utilize the SwitchBack Technique to shoot with a natural twohanded grip.
- Employ traditional lowlight techniques such as Neck Index, Modified FBI, and Harries for effective use.
- Ensure positive retention of the light when drawing a firearm, reloading, or addressing a malfunction.
- The finger ring is designed to release under heavy force/torque but can be reset for continued use.

Disposal Instructions

- Dispose of the SwitchBack DF Flashlight Ring in accordance with local regulations for electronic waste.
- Do not dispose of the ring in regular household waste.
- If you are unsure about disposal methods, contact your local waste management authority for guidance.
