

SWITCHBACK DF FLASHLIGHT RING WITH POCKET CLIP - THYRM LLC SWITCHBACK DF FLASHLIGHT RING W/POCKET CLIP TAN

[Shooting Accessories](#) > [Flashlights & Accessories](#) > [Flashlight Accessories](#)

SWITCHBACK DF FLASHLIGHT RING WITH POCKET CLIP The SwitchBack® DF adds a multi-function finger ring and robust pocket clip to SureFire's Dual Fuel Series Flashlights. It mounts securely on the light's tailcap, providing a repeatable grip index during deployment from pocket or pouch, and enhances ergonomics while shooting or searching. Featuring the same enhanced features as the SwitchBack® 2.0, the SwitchBack DF Flashlight Ring is the ergonomic upgrade your SureFire Dual Fuel tactical flashlight deserves! It features a larger opening to accept the Dual Fuel's tailcap and includes an additional lock to ensure it stays in place during hard use. **FEATURES:** Like all our SwitchBacks, it can be used with handguns or long guns, allowing the user to: Reliably deploy and index a flashlight from both pockets and pouches, using the SwitchBack's rigid, but releasable, retention ring. Shoot using a natural two-handed grip (the SwitchBack Technique). Employ all traditional low-light techniques such as Neck Index, Modified FBI, and Harries. Positively retain the light when drawing a firearm, reloading, and addressing a malfunction. The SwitchBack DF Flashlight Ring also provides fast deployment and enhanced retention during many activities such as climbing, backpacking, car and home maintenance, and self-defense. A finger ring that releases under heavy force/torque, but can be reset. A strong pocket clip that also works with MOLLE/PALS webbing. A pocket clip position that allows for slightly deeper carry than the SwitchBack® Large (original). A tubular portion that is cut lower to allow grip on both sides of the tail-cap during installation. A wide thumb rest with traction features. Small crush ribs on the SwitchBack DF's lip create a custom fit. Designed and manufactured in the USA. **Installation** For installation: Unlock the release ring and hold it below the latch on the tube of the SwitchBack; this will deflect the upper locking finger of the tube's channel. Insert the tailcap until it's seated at the bottom of the SwitchBack DF's tube. Reattach the ring to the latch on the tube: This will capture the tailcap within the SwitchBack DF; you can press the top end of it against the tailcap to help seat it. No additional washers or O-rings are needed for installation, but the SureFire O-ring should stay on the light. **Note:** You do not need to remove the tailcap from the SwitchBack during battery changes. **Caution:** When changing batteries, be sure to carefully align the tailcap and body of the flashlight and screw down the tailcap without dislodging the sealing O-ring on the body of the flashlight.

Attributes

- Name: [THYRM LLC SWITCHBACK DF FLASHLIGHT RING W/POCKET CLIP TAN](#)
- Manufacturer: [THYRM LLC](#)

Safety Instruction Guide for the SWITCHBACK DF FLASHLIGHT RING WITH POCKET CLIP

Introduction

Thank you for choosing the SWITCHBACK DF FLASHLIGHT RING WITH POCKET CLIP by THYRM LLC. This product is designed to enhance the functionality and ergonomics of your SureFire Dual Fuel tactical flashlight. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always use the flashlight ring as intended to avoid potential hazards.
- Ensure that the flashlight is securely mounted to prevent accidental detachment during use.
- Keep the product out of reach of children and vulnerable individuals to prevent misuse.
- Regularly inspect the flashlight ring and pocket clip for signs of wear or damage.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- When using the flashlight ring, ensure that your grip is firm but not overly tight to allow for quick release if necessary.
- Avoid using the flashlight in wet or damp conditions unless it is rated for such use.
- Do not modify the flashlight or ring in any way, as this may compromise safety and performance.
- Always ensure that the tailcap is securely fastened before use to prevent battery leakage or flashlight failure.
- If the flashlight ring becomes loose during use, stop using it immediately and check for proper installation.

Instructions for Installation and Usage

Installation

1. Unlock the release ring and hold it below the latch on the tube of the SwitchBack.
2. This will deflect the upper locking finger of the tube's channel.
3. Insert the tailcap until it is seated at the bottom of the SwitchBack DF's tube.
4. Reattach the ring to the latch on the tube. This will capture the tailcap within the SwitchBack DF.
5. Press the top end of the ring against the tailcap to help seat it.
6. No additional washers or Orings are needed for installation, but ensure the SureFire Oring remains on the light.

Usage

- To deploy the flashlight, use the SwitchBack's rigid but releasable retention ring for reliable indexing.
- Employ traditional lowlight techniques such as Neck Index, Modified FBI, and Harries while using the flashlight.
- Maintain a natural twohanded grip (the SwitchBack Technique) while shooting or searching.
- For climbing, backpacking, or maintenance tasks, ensure the finger ring is secure for fast deployment and enhanced retention.

Disposal Instructions

- Dispose of the SWITCHBACK DF FLASHLIGHT RING in accordance with local regulations.
- Do not dispose of the product in regular household waste.

- Consider recycling components where possible to minimize environmental impact.

Contact Information for Further Support

For any questions or concerns regarding the SWITCHBACK DF FLASHLIGHT RING, please refer to the manufacturer's website or customer service resources.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with the SWITCHBACK DF FLASHLIGHT RING WITH POCKET CLIP. Thank you for your attention to safety, and enjoy using your product responsibly.
