

CELLVAULT 21 BATTERY STORAGE FOR 21700 & SL B50 O.D.GREEN

CELLVAULT-21 BATTERY STORAGE FOR 21700 AND STREAMLIGHT SL-B50

Protect your spare 21700 battery while keeping it immediately accessible with the CellVault-21 Rechargeable Battery Storage. Premium batteries require protection from physical and environmental damage but need to remain accessible to keep advanced tactical lights running at full power. The CellVault-21 Rechargeable Battery Storage provides the same feature set as our popular CellVault-18 including dual-wall construction & side viewing windows but adds a larger capacity and an upgraded latch that allows for easy installation, especially on tight MOLLE/PALS webbing. **FEATURES:** Holds one 21700 Rechargeable Battery Holds one Streamlight SL-B50 Battery (with foam removed) Waterproof O-ring seal rated to IPX7 at 2 meters for 30+ minutes Secure metal latch seals and attaches the CellVault-21 to gear Silicone foam shock absorber/noise silencer Clear side windows allow for gear status checks Slim profile: less than 1 MOLLE/PALS column wide for easy integration into existing gear configurations Detachable latch installs easily on all MOLLE and can be backed up with the included security pin Designed and manufactured in the USA **INSTALLATION:** Unlock the bottom latch and open the CellVault-21. Press the release tab with a screwdriver or similar tool to release the latch from the back strap. Insert the back strap through the MOLLE/PALS webbing. Align the side tabs and snap the latch back into the back strap. Install additional security pin through both the latch and back strap if necessary. Verify foam shock absorber is at the bottom of the CellVault-21 tube. Insert battery with the positive (+) terminal towards the foam at the bottom. Close the latch, making sure no material is caught in the tube/cap interface.

Attributes

- Name: CELLVAULT 21 BATTERY STORAGE FOR 21700 & SL B50 O.D.GREEN

CELLVAULT 21 BATTERY STORAGE SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the CELLVAULT 21 Battery Storage. This product is designed to securely store and protect your 21700 and Streamlight SLB50 batteries while keeping them easily accessible. This safety instruction guide provides essential information to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is used only for its intended purpose of storing 21700 and Streamlight SLB50 batteries.
- Keep the product out of reach of children and vulnerable individuals to prevent accidents or misuse.
- Regularly inspect the CELLVAULT 21 for any signs of damage or wear. Do not use if damaged.
- Follow the installation and usage instructions carefully to avoid hazards.
- In case of battery leakage or damage, handle with care and dispose of batteries according to local regulations.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- **Battery Compatibility:** Only use 21700 rechargeable batteries and Streamlight SLB50 batteries with this storage unit.
- **Environmental Conditions:** Store the CELLVAULT 21 in a cool, dry place away from direct sunlight and extreme temperatures to prevent battery damage.
- **Water Resistance:** The CELLVAULT 21 has an IPX7 rating, which means it can withstand immersion in water up to 2 meters for 30 minutes. However, do not intentionally submerge the product.
- **Shock Absorption:** The silicone foam shock absorber is designed to protect the batteries. Ensure it is properly positioned at the bottom of the storage tube.
- **Installation Safety:** When attaching the CELLVAULT 21 to gear using MOLLE/PALS webbing, ensure the latch is securely fastened to prevent accidental detachment.

Instructions for Installation and Usage

1. Unlocking and Opening:

- Unlock the bottom latch and open the CELLVAULT 21.

2. Preparing the Back Strap:

- Press the release tab with a screwdriver or similar tool to detach the latch from the back strap.
- Insert the back strap through the MOLLE/PALS webbing.

3. Reattaching the Latch:

- Align the side tabs and snap the latch back into the back strap.
- If necessary, install an additional security pin through both the latch and back strap for added security.

4. Inserting the Battery:

- Verify that the foam shock absorber is at the bottom of the CELLVAULT 21 tube.
- Insert the battery with the positive (+) terminal facing the foam at the bottom.

5. Closing the Latch:

- Close the latch carefully, ensuring that no material is caught in the tube/cap interface.

Disposal Instructions

- Dispose of the CELLVAULT 21 and any batteries according to local regulations.
- Do not throw batteries in household waste. Instead, take them to designated recycling points or collection facilities.

Contact Information for Further Support

For any safety inquiries or issues regarding the CELLVAULT 21 Battery Storage, please contact the manufacturer directly through the provided channels. Ensure you have your product details ready for a quicker response.

By following these safety instructions, you can enjoy the benefits of the CELLVAULT 21 Battery Storage while ensuring your safety and the safety of others. Thank you for your attention to these guidelines.
