CELLVAULT-21 BATTERY STORAGE FOR 21700 AND STREAMLIGHT SL-B50

Protect your spare 21700 battery while keeping it immediately accessible with the CellVault-21 Rechargeable Battery Storage. Premium batteries require protection from physical and environmental damage but need to remain accessible to keep advanced tactical lights running at full power. The CellVault-21 Rechargeable Battery Storage provides the same feature set as our popular CellVault-18 including dual-wall construction & side viewing windows but adds a larger capacity and an upgraded latch that allows for easy installation, especially on tight MOLLE/PALS webbing. **FEATURES:** Holds one 21700 Rechargeable Battery Holds one Streamlight SL-B50 Battery (with foam removed) Waterproof O-ring seal rated to IPX7 at 2 meters for 30+ minutes Secure metal latch seals and attaches the CellVault-21 to gear Silicone foam shock absorber/noise silencer Clear side windows allow for gear status checks Slim profile: less than 1 MOLLE/PALS column wide for easy integration into existing gear configurations Detachable latch installs easily on all MOLLE and can be backed up with the included security pin Designed and manufactured in the USA **INSTALLATION:** Unlock the bottom latch and open the CellVault-21. Press the release tab with a screwdriver or similar tool to release the latch from the back strap. Insert the back strap through the MOLLE/PALS webbing. Align the side tabs and snap the latch back into the back strap. Install additional security pin through both the latch and back strap if necessary. Verify foam shock absorber is at the bottom of the CellVault-21 tube. Insert battery with the positive (+) terminal towards the foam at the bottom. Close the latch, making sure no material is caught in the tube/cap interface.

CELLVAULT 21 Battery Storage Safety Instructions

Introduction

Thank you for choosing the CELLVAULT 21 Battery Storage by THYRM LLC. This product is designed to protect and store your 21700 rechargeable batteries and Streamlight SLB50 battery safely and effectively. Please read this safety instruction guide carefully to ensure safe usage and compliance with EU General Product Safety Regulations (GPSR).

General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is to store 21700 rechargeable batteries and Streamlight SLB50 batteries.
- Always keep the product out of reach of children and vulnerable individuals to prevent accidental use or injury.
- Inspect the CELLVAULT 21 before each use for any signs of damage or wear. Do not use if damaged.
- Store the product in a dry environment to prevent moisture damage.
- Keep the product away from extreme temperatures and direct sunlight to avoid degradation of materials.

Specific Safety Precautions for Use

- Do not expose the CELLVAULT 21 to water beyond its waterproof rating of IPX7. Ensure the O-ring seal is intact before exposure to water.
- Avoid dropping or subjecting the product to strong impacts, as this may compromise its structural integrity.
- Only use compatible batteries (21700 rechargeable batteries and Streamlight SLB50 batteries) as specified. Using incompatible batteries may result in malfunction or damage.
- Ensure that the battery is inserted with the positive (+) terminal facing the foam at the bottom of the storage tube.
- Do not attempt to open or modify the product in any way that is not outlined in the installation instructions.

Instructions for Installation and Usage

1. **Unlock and Open:** Unlock the bottom latch and open the CELLVAULT 21.
2. **Release the Latch:** Press the release tab with a screwdriver or similar tool to detach the latch from the back strap.
3. **Insert the Back Strap:** Insert the back strap through the MOLLE/PALS webbing.
4. **Align and Snap:** Align the side tabs and snap the latch back into the back strap.
5. **Secure with Pin:** If necessary, install an additional security pin through both the latch and back strap.
6. **Check Shock Absorber:** Verify that the foam shock absorber is at the bottom of the CELLVAULT 21 tube.
7. **Insert Battery:** Insert the battery with the positive (+) terminal towards the foam at the bottom.
8. **Close the Latch:** Close the latch, ensuring that no material is caught in the tube/cap interface.

Disposal Instructions

- Dispose of the CELLVAULT 21 in accordance with local regulations for electronic waste.
- Batteries should be disposed of separately at designated battery recycling points. Do not throw batteries in regular trash.
- Ensure that the product is completely empty and cleaned before disposal.

Contact Information for Further Support

For any safety inquiries or support regarding the CELLVAULT 21 Battery Storage, please refer to the contact information provided with your product or visit the official THYRM LLC website.

Please remember to report any unsafe products or accidents to the appropriate authorities. Stay updated on recall information through the EU's Safety Gate platform. Your safety and satisfaction are our top priorities. Thank you for your attention to these safety instructions.
