

RIFLE PRECISION MICROMETER BULLET SEATING DIES - LEE PRECISION 223 REMINGTON RIFLE PRECISION MICROMETER BULLET SEATING DIE

LEE PRECISION RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introducing the new Precision Micrometer bullet seating die. Features dead length bullet seating with smooth, accurate adjustment. Tests prove sliding bullet guide provides cartridges with the least bullet runout. When used as a dead length bullet seating die, the body contacts the shell holder assuring precise uniform seating depth. FEATURES Laser engraved micrometer thimble and body is easy to read with divisions representing one thousandth of an inch, reads just like a precision depth micrometer. Infinitely adjustable, providing precision bullet seating depth. Bullet seating stem is machined and burnished to seat nearly any point style bullet without damage or marking. The case mouth and bullet are held in perfect alignment by a floating bullet guide. The bullet guide is provided with radial clearance to allow the case and bullet guide to align perfectly with the bullet seater screw. The floating bullet guide is reversible, simply unthread guide and re-install to allow seating and crimping simultaneously, an exclusive feature to Lee. This bullet seating die proves accuracy doesn't have to cost a lot.

Safety Instruction Guide for RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introduction

Thank you for choosing the RIFLE PRECISION MICROMETER BULLET SEATING DIES from LEE PRECISION. This guide provides important safety information to ensure the safe use of this product. Please read and understand all instructions before use to minimize risks associated with handling and operating the bullet seating die.

General Safety Guidelines

- Always read the product manual and safety instructions before use.
- Ensure that the workspace is clean, dry, and welllit.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose as described in the manual.
- Regularly inspect the product for any signs of wear or damage before use.
- Always wear appropriate safety gear, including eye protection, when using the product.
- Follow all local regulations regarding the use and storage of reloading equipment and materials.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Risk of injury from moving parts during operation.
 - Risk of improper bullet seating leading to firearm malfunctions.
 - Risk of lead exposure from handling bullets.
- **Avoiding Hazards:**
 - Keep hands and clothing away from moving parts.
 - Ensure that the bullet seating die is securely attached to the reloading press before use.
 - Use only compatible cartridges and bullets as specified in the product manual.
 - Do not exceed the recommended bullet seating depth to prevent firearm malfunctions.
 - Clean hands thoroughly after handling bullets to avoid lead exposure.
- **AgeSpecific Warnings:**
 - This product is intended for use by individuals aged 18 and older.
 - Ensure that inexperienced users are supervised by a knowledgeable adult.

Instructions for Installation and Usage

1. Installation:

- Ensure that the reloading press is turned off and unplugged.
- Securely attach the bullet seating die to the reloading press according to the manufacturer's instructions.
- Adjust the seating depth using the micrometer thimble for precise control.

2. Usage:

- Prepare the cartridge case and bullet according to standard reloading procedures.
- Insert the cartridge case into the shell holder of the reloading press.

- Align the bullet with the case mouth and gently lower the bullet seating stem to seat the bullet.
- Check the seating depth using the micrometer scale for accuracy.
- Repeat the process for each cartridge, ensuring consistent seating depth.

3. **PostUsage:**

- Remove any debris or residue from the bullet seating die after use.
- Store the product in a cool, dry place away from direct sunlight and moisture.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of lead bullets in regular household waste. Check for local recycling programs that accept lead materials.
- Ensure that all packaging materials are disposed of responsibly.
