LEE PRECISION RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introducing the new Precision Micrometer bullet seating die. Features dead length bullet seating with smooth, accurate adjustment. Tests prove sliding bullet guide provides cartridges with the least bullet runout. When used as a dead length bullet seating die, the body contacts the shell holder assuring precise uniform seating depth. FEATURES Laser engraved micrometer thimble and body is easy to read with divisions representing one thousandth of an inch, reads just like a precision depth micrometer. Infinitely adjustable, providing precision bullet seating depth. Bullet seating stem is machined and burnished to seat nearly any point style bullet without damage or marking. The case mouth and bullet are held in perfect alignment by a floating bullet guide. The bullet guide is provided with radial clearance to allow the case and bullet guide to align perfectly with the bullet seater screw. The floating bullet guide is reversible, simply unthread guide and re-install to allow seating and crimping simultaneously, an exclusive feature to Lee. This bullet seating die proves accuracy doesn't have to cost a lot.

Safety Instruction Guide for RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introduction

Thank you for choosing the RIFLE PRECISION MICROMETER BULLET SEATING DIES by LEE PRECISION. This product is designed to enhance your reloading experience with precision and accuracy. However, safety is paramount when using any reloading equipment. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand all instructions before using the product.
- Ensure that the workspace is clean, dry, and wellventilated.
- Keep the product out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling reloading materials.
- Store the product in a secure location away from moisture and extreme temperatures.
- Regularly inspect the product for signs of wear or damage before use.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Potential hazards include injury from sharp components, exposure to lead, and the risk of improper bullet seating leading to misfires.
- **Instructions for Avoiding Hazards:**
 - Always handle the micrometer die with care to avoid cuts or injuries.
 - Do not exceed the recommended bullet seating depth to prevent dangerous pressure buildup.
 - Ensure that all components are clean and free of debris before use.
 - Do not modify the product in any way, as this can compromise safety and effectiveness.
 - Follow all ammunition handling and storage guidelines to minimize risks.
- **AgeSpecific Warnings:**
 - This product is intended for use by adults only. Keep it away from children and ensure that only trained individuals operate the equipment.

Instructions for Installation and Usage

- **Installation:**
 - Ensure the reloading press is securely mounted and stable.
 - Attach the micrometer bullet seating die to the press according to the manufacturer's instructions.
 - Adjust the bullet seating depth using the micrometer thimble, ensuring it is set to the desired measurement.
- **Usage:**
 - Prepare the cases and bullets as per standard reloading practices.
 - Insert the case into the shell holder and align it with the bullet seating die.

- Place the bullet on the case mouth and gently lower the die onto the bullet.
- Apply consistent pressure to seat the bullet to the desired depth.
- Inspect each cartridge for proper seating depth and alignment before proceeding to crimping.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in household waste. Instead, contact your local waste management facility for proper disposal methods.
- Ensure that all lead components are handled and disposed of safely to avoid environmental contamination.

Contact Information for Further Support

For any safety inquiries or concerns regarding the RIFLE PRECISION MICROMETER BULLET SEATING DIES, please refer to the product packaging for the manufacturer's contact information. It is essential to consult with the manufacturer for any productspecific questions or issues.

Conclusion

Your safety and satisfaction are our top priorities. By following these guidelines and instructions, you can ensure a safe and effective reloading experience with the RIFLE PRECISION MICROMETER BULLET SEATING DIES. Remember to stay informed about safety updates and product recalls through the EU's Safety Gate platform. Thank you for your attention to these important safety measures.
