

RIFLE PRECISION MICROMETER BULLET SEATING DIES - LEE PRECISION 30-30 WINCHESTER RIFLE PRECISION MICROMETER BULLET SEAT DIE

LEE PRECISION RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introducing the new Precision Micrometer bullet seating die. Features dead length bullet seating with smooth, accurate adjustment. Tests prove sliding bullet guide provides cartridges with the least bullet runout. When used as a dead length bullet seating die, the body contacts the shell holder assuring precise uniform seating depth. FEATURES Laser engraved micrometer thimble and body is easy to read with divisions representing one thousandth of an inch, reads just like a precision depth micrometer. Infinitely adjustable, providing precision bullet seating depth. Bullet seating stem is machined and burnished to seat nearly any point style bullet without damage or marking. The case mouth and bullet are held in perfect alignment by a floating bullet guide. The bullet guide is provided with radial clearance to allow the case and bullet guide to align perfectly with the bullet seater screw. The floating bullet guide is reversible, simply unthread guide and re-install to allow seating and crimping simultaneously, an exclusive feature to Lee. This bullet seating die proves accuracy doesn't have to cost a lot.

Safety Instruction Guide for RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introduction

Thank you for choosing the RIFLE PRECISION MICROMETER BULLET SEATING DIES by LEE PRECISION. This product is designed for precision bullet seating, ensuring accuracy and efficiency in your reloading process. It is important to read and understand the safety instructions provided in this guide to ensure safe and effective usage.

General Safety Guidelines

- Always read the product manual before use.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product only for its intended purpose.
- Regularly inspect the product for any signs of wear or damage.
- Report any unsafe conditions or accidents immediately to the relevant authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that you are familiar with the operation of micrometer bullet seating dies before use.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses, when using this product.
- Avoid using the die with damaged or worn components.
- Do not exceed the maximum recommended bullet weight for the die.
- Ensure that the workspace is clean and free from obstructions before starting the reloading process.
- Keep fingers and other body parts clear of moving parts during operation.
- Do not modify the die or use it in a manner not specified in the instructions.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is securely mounted and stable.
- Insert the bullet seating die into the press according to the manufacturer's instructions.
- Tighten the die securely to prevent movement during use.
- Adjust the die to the desired seating depth using the micrometer thimble.

2. Usage:

- Prepare your cases and bullets according to standard reloading practices.
- Place a case in the shell holder and ensure it is seated correctly.
- Insert the bullet into the case mouth, ensuring proper alignment.
- Activate the press to seat the bullet. The floating bullet guide will assist in maintaining alignment.
- After seating, check the bullet depth with a caliper to ensure accuracy.
- Repeat the process for additional cartridges as needed.

Disposal Instructions

- Dispose of any unused components and packaging in accordance with local regulations.
- Do not dispose of the product in household waste. Check for local recycling programs or hazardous waste disposal options.

- Ensure that all components are completely emptied and cleaned before disposal to prevent environmental contamination.

Contact Information for Further Support

For any inquiries regarding safety, usage, or maintenance of the RIFLE PRECISION MICROMETER BULLET SEATING DIES, please refer to the manufacturer's official website or contact their customer support.

By following these safety instructions, you can ensure a safe and effective reloading experience with your RIFLE PRECISION MICROMETER BULLET SEATING DIES. Always prioritize safety and adhere to the guidelines provided to protect yourself and others.
