

RIFLE PRECISION MICROMETER BULLET SEATING DIES - LEE PRECISION 38-40 WINCHESTER RIFLE PRECISION MICROMETER BULLET SEAT DIE

LEE PRECISION RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introducing the new Precision Micrometer bullet seating die. Features dead length bullet seating with smooth, accurate adjustment. Tests prove sliding bullet guide provides cartridges with the least bullet runout. When used as a dead length bullet seating die, the body contacts the shell holder assuring precise uniform seating depth. FEATURES Laser engraved micrometer thimble and body is easy to read with divisions representing one thousandth of an inch, reads just like a precision depth micrometer. Infinitely adjustable, providing precision bullet seating depth. Bullet seating stem is machined and burnished to seat nearly any point style bullet without damage or marking. The case mouth and bullet are held in perfect alignment by a floating bullet guide. The bullet guide is provided with radial clearance to allow the case and bullet guide to align perfectly with the bullet seater screw. The floating bullet guide is reversible, simply unthread guide and re-install to allow seating and crimping simultaneously, an exclusive feature to Lee. This bullet seating die proves accuracy doesn't have to cost a lot.

Safety Instruction Guide for RIFLE PRECISION MICROMETER BULLET SEATING DIES

Introduction

Thank you for choosing the RIFLE PRECISION MICROMETER BULLET SEATING DIES by LEE PRECISION. This guide provides essential safety instructions to ensure the safe use of this product, in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that all users of this product are aware of the safety measures outlined in this guide.
- Always follow the manufacturer's instructions for safe handling and use.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear. Do not use if damaged.
- Report any unsafe product experiences to the appropriate authorities.
- Stay informed about any product recalls by checking the EU Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate eye protection when using the bullet seating die.
- Ensure that the workspace is clean, dry, and welllit to prevent accidents.
- Avoid wearing loose clothing or jewelry that could get caught in machinery.
- Use only compatible cartridges as specified in the product instructions.
- Do not exceed the recommended bullet seating depth to avoid potential hazards.
- Ensure that the bullet guide is properly aligned before operation to prevent misfires.
- Keep hands and other body parts clear of moving parts during use.
- Never leave the product unattended while in operation.

Instructions for Installation and Usage

1. Installation:

- Unpack the product and ensure all components are present.
- Securely attach the bullet seating die to your reloading press as per the manufacturer's instructions.
- Adjust the micrometer thimble to the desired bullet seating depth.

2. Usage:

- Place a cartridge case into the shell holder of the reloading press.
- Insert the bullet into the case mouth, ensuring proper alignment.
- Adjust the floating bullet guide to hold the bullet in place.
- Slowly operate the reloading press to seat the bullet, ensuring the bullet guide remains aligned.
- Check the seating depth using the micrometer thimble for accuracy.
- After seating, inspect the cartridge for any signs of damage or improper seating.

Disposal Instructions

- Dispose of the product according to local regulations regarding metal and plastic waste.
- Do not dispose of the product in regular household waste. Check for recycling options in your area.
- If the product is damaged or no longer usable, consider returning it to the manufacturer for proper disposal.

Contact Information for Further Support
