

FLAT TAKE DOWN LEVERS FOR SIG SAUER® P320 - TYRANT CNC

FLAT TAKE DOWN LEVER FOR SIG SAUER P320 BLACK

TYRANT CNC FLAT TAKE DOWN LEVERS FOR SIG SAUER® P320 Introducing the Enhanced Flat P320 Takedown Lever by Tyrant CNC — the ultimate holster-compatible upgrade for the Sig Sauer P320. Precision-engineered for flawless integration, this takedown lever is the definitive solution to common SIG P320 issues, including the frustrating problem of the lever getting stuck. Designed as a seamless, direct replacement, it elevates firearm functionality while enhancing compatibility with all holster types. Crafted from premium-grade steel and machined with exacting precision via CNC processes, the Enhanced Flat P320 Takedown Lever delivers unmatched reliability. A specialized heat-treatment process fortifies the lever's resilience, ensuring it outperforms standard factory components under the most demanding conditions. The bead-blasted surface finish strikes a perfect balance between aesthetics and practicality, enhancing grip security. A PVD coating further protects against wear and tear, preserving both the lever's integrity and sleek appearance over time. Tyrant CNC has redefined the takedown lever's geometry by increasing the surface area without compromising its low-profile design. This thoughtful enhancement allows for effortless manipulation—even when wearing gloves or operating under stress—streamlining disassembly and maintenance. Fully holster-compatible, the lever ensures smooth drawing and re-holstering with all holster types, eliminating interference or snagging. The expanded surface also functions as an additional thumb rest, offering improved stability and control for precise shooting in any condition. For discerning Sig Sauer P320 owners, the Enhanced Flat P320 Takedown Lever by Tyrant CNC is more than an accessory—it's a performance-driven upgrade that combines innovative design with functional excellence. Elevate the shooting experience and ensure peak performance in every scenario with this standout component.

Safety Instruction Guide for FLAT TAKE DOWN LEVERS FOR SIG SAUER® P320

Introduction

Thank you for purchasing the Enhanced Flat P320 Takedown Lever by Tyrant CNC. This product is designed to enhance the functionality and performance of your Sig Sauer P320 firearm. Your safety and satisfaction are our top priorities. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always handle firearms with care and treat every firearm as if it is loaded.
- Ensure that the firearm is pointed in a safe direction when performing any maintenance.
- Keep the takedown lever and all firearm components out of reach of children and unauthorized users.
- Regularly inspect the takedown lever and the firearm for any signs of wear or damage.
- If you notice any irregularities or issues with the takedown lever, discontinue use immediately and consult a qualified gunsmith.
- Follow all local laws and regulations regarding firearm ownership and usage.

Specific Safety Precautions for Use

- When installing or removing the takedown lever, ensure the firearm is unloaded and the magazine is removed.
- Wear protective eyewear when working on your firearm to prevent injury from potential debris.
- Avoid using excessive force during installation or removal to prevent damage to the lever or firearm.
- Do not modify the takedown lever or any other components of your firearm, as this may compromise safety and performance.
- Always ensure that the takedown lever is properly seated and functioning before using the firearm.

Instructions for Installation and Usage

Installation: 1. Ensure that the firearm is unloaded, and the magazine is removed. 2. Using a suitable tool, carefully remove the existing takedown lever from the firearm. 3. Align the Enhanced Flat P320 Takedown Lever with the designated slot on the firearm. 4. Gently press the lever into place until it is fully seated. 5. Check the lever for proper functionality by ensuring it moves freely and does not obstruct any other components. 6. Reassemble the firearm and conduct a function check to ensure everything operates smoothly.

Usage: * To use the takedown lever, ensure the firearm is pointed in a safe direction. * When ready to disassemble, engage the takedown lever according to the manufacturer's instructions for your specific firearm model. * Follow all safety protocols during disassembly and reassembly to maintain safe operation.

Disposal Instructions

- Dispose of the takedown lever in accordance with local regulations concerning metal and firearm component disposal.
- If the product is damaged or no longer in use, ensure it is securely stored until it can be disposed of properly.
- Do not discard in regular household waste; instead, consult local recycling or hazardous waste facilities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further support regarding the Enhanced Flat P320 Takedown Lever, please contact your local authorized dealer or refer to the manufacturer's website for assistance.

Conclusion

Your safety is paramount when using firearm components such as the Enhanced Flat P320 Takedown Lever by Tyrant CNC. By following these guidelines and instructions, you can ensure optimal performance and safety while using your firearm. Thank you for choosing Tyrant CNC, and we wish you safe and enjoyable shooting experiences.
