TYRANT CNC MK1 +5/4 MAGAZINE EXTENSION FOR GLOCK® 19/23 Tyrant CNC's Glock Compatible Magazine Extension for the G19, the G23, and the G26 provides an innovative and technically superior alternative to the limitations of the OEM Glock magazine. Where the standard capacity of the G19 magazine is 15 rounds, Tyrant CNC's Glock-compatible mag extension raises by up to +5 rounds. Each purchase includes a 10% power spring and is easily installed with zero tools required. Eliminate frequent reloading with the Tyrant CNC Glock Compatible Glock 19 Magazine Extension. This mag extension also works on Glock 23 and Glock 26 models as they share the same bottom half geometry, giving all models a +5 gain in capacity. The best feature, however, is how Tyrant CNC have engineered this magazine extension to be installed AND removed without any tools. Their 'NoBak' advanced retention plunger technology ensures a quick and tool-free installation, making this mag extension the easiest on the market. This Glock-compatible Glock 19 mag extension is constructed from durable 6061 aerospace-grade aluminum to ensure durability and reliability from hard and prolonged use. Perfect for concealed carriers and competitive shooters alike, the Tyrant CNC magazine extension for the (G19) (G23) (G26) offers enhanced control and a secure grip, making every reload faster and more reliable.

FEATURES Glock 19/23/26 Ready Magazine Extension Tyrant's Glock-compatible magazine Extension is engineered to enhance the performance of your Glock pistols by increasing magazine capacity, increasing surface area that directly improves control, and maintaining the firearm's reliability. Included is a USA-made power spring with 1 additional coil over the OEM magazine springs, giving the operator a 10% stronger magazine and making it an essential upgrade for discerning shooters. Below, Tyrant CNC detail the key features and benefits of their G19 mag extension, ensuring a full understanding of its superior design and functionality. **What Is A Mag Extension?** A magazine extension is a precision-engineered accessory, typically CNC machined from aluminum, that attaches to the base of your firearm's magazine increasing its capacity and enhancing overall functionality. The internal dimensions mimic those dimensions of a magazine, making it an "extension" of the magazine. Tyrant's magazine extensions are specifically designed for the Glock 19, Glock 23, and Glock 26, allowing you to carry 5 additional rounds without compromising the magazine's performance or reliability. This practical upgrade integrates seamlessly with your existing mags, offering a solution for shooters who require increased firepower and faster reloads during critical moments. **Increased Magazine Capacity** Tyrant's Glock 19 Compatible Magazine Extension enhances your magazine's capacity by adding 5 extra rounds of 9mm or 4 extra rounds of .40 caliber ammunition. This increase is invaluable for a competitive shooter and concealed carrier who relies on having additional rounds in stock for their gun.

With this extension, your Glock 19, 23, or 26 pistol becomes a higher-capacity, more versatile firearm equipped to easily handle various shooting scenarios. **Enhanced Firearm Control** The mag extension's added weight and ergonomic design substantially improved your firearm control. The weight gained from adding this to your mag provides the necessary heft for smoother magazine drops and faster reloads. The knurled grip and smooth chamfered

edges of their mag extensions ensure a secure hold, even under stress, resulting in more accurate shots and better handling. This enhancement is beneficial in both competitive settings and self-defense situations, where control and precision are paramount. **Durable Construction** As mentioned earlier, their magazine extension is CNC-machined from T6-6061 aluminum. After it is machined, Tyrant CNC send them off for bead blasting and anodizing to provide a non-slip texture and anti-corrosive properties. This post-manufacturing stage also provides exceptional durability and a flawless finish. Its robust construction allows it to withstand the rigorous demands of regular training, competitions, and defensive use. Despite its durability, the extension maintains a slim profile, preserving the balance and feel of your Glock pistol. Customers are consistently giving positive feedback for how concealable Tyrant's product is even with the added surface area. **Easy Installation & Flush Fit** The installation process for Tyrant's Glock magazine extension is remarkably simple and tool-free, taking less than 10 seconds. Their innovative 'NoBak' retention plunger technology allows the extension to slide effortlessly onto the bottom of your magazine. Removal is equally straightforward—just push the plunger pin and slide the extension off. Designed for a flush fit with your Glock's magazine, it preserves the firearm's sleek profile while enhancing its functionality and performance. No additional screws or tools are needed, making it an ideal choice for quick upgrades. **SPECS Designed For Models:** G19, G23, G26 **Generation:** Generation 2, Generation 3, Generation 4, Generation 5 **Works on 15-round Glock Mags** Works on aftermarket mags EXCEPT for PMAGS Fits Glock 26 Generation 3 & 5 magazines only Fits Ruger RXM **USPSA Measurements and Weight** HxWxL= 36mm x 28.5mm x 38mm Weight= 42 Grams Assembled Height: 134.9mm Assembled Weight: 114 Grams Purchase includes new power spring Quickest installing Magazine Extension EVER Adds 5 rounds of 9mm / Adds 4 rounds of .40 Added control and increased purchase Smooth chamfered edges **NO TOOLS NECESSARY!** Product Length: 1.15 IN Product Width: .90 IN Product Weight: 1.3 OZ **DISCLAIMER:** "GLOCK" is a federally registered trademark of GLOCK, Inc. and is one of many trademarks owned by GLOCK, Inc. or GLOCK Ges.m.b.H. Safety Instruction Guide for MKI +5/4 Magazine Extension for Glock® 19/23/26

Introduction

Thank you for choosing the TYRANT CNC MKI +5/4 Magazine Extension for your Glock® 19, 23, or 26. This product is designed to enhance your magazine capacity while ensuring safety and reliability. Please read this safety instruction guide carefully to understand how to use, install, and dispose of this product safely.

General Safety Guidelines

- Ensure the magazine extension is compatible with your specific Glock® model (G19, G23, G26).
- Always handle firearms and accessories with care, following all safety protocols.
- Keep the magazine extension out of reach of children and unauthorized persons.
- Inspect the magazine extension regularly for signs of wear or damage.
- Do not exceed the recommended capacity of the magazine extension.
- In case of any malfunction or irregularity, cease use immediately and consult a qualified gunsmith.

Specific Safety Precautions for Use

- Always ensure your firearm is unloaded before installing or removing the magazine extension.
- Do not attempt to modify or alter the magazine extension in any way.
- Use only the recommended ammunition types (9mm or .40 S&W) with this magazine extension.
- Be aware of your surroundings when using your firearm to prevent accidents.
- Store your firearm and magazine extension in a secure location when not in use.

Instructions for Installation and Usage

Installation Steps

1. **Prepare the Magazine:** Ensure that the magazine is unloaded and free of ammunition.
2. **Align the Extension:** Position the magazine extension at the base of your Glock® magazine.
3. **Install the Retention Plunger:** Slide the extension onto the magazine until it clicks into place, utilizing the 'NoBak' retention technology for a secure fit.
4. **Check Installation:** Gently pull on the magazine extension to ensure it is securely attached.

Usage Instructions

- Load the magazine extension with the appropriate number of rounds (up to 5 additional rounds for 9mm or 4 additional rounds for .40 S&W).
- Ensure that the magazine is seated properly in the firearm before use.
- Practice safe handling and shooting techniques at all times.

Disposal Instructions

- Dispose of the magazine extension in accordance with local regulations regarding metal recycling.
- If the magazine extension is damaged or no longer usable, do not attempt to repair it. Dispose of it responsibly.

Contact Information for Further Support

For any questions or concerns regarding the safety or functionality of your MKI +5/4 Magazine Extension, please refer to the manufacturer's website or contact their customer support for assistance.

Disclaimer: This safety instruction guide is intended to provide general safety information. Always follow the specific safety guidelines provided by your firearm manufacturer and consult a qualified professional for any concerns regarding firearm safety and maintenance.
