

TAKE DOWN LEVER FOR SIG SAUER® P320 - TYRANT CNC TAKE DOWN LEVER FOR SIG SAUER P320 GRAY

TYRANT CNC TAKE DOWN LEVER FOR SIG SAUER® P320 Looking for a high-quality Sig Sauer P320 takedown lever? Look no further than the direct, drop in replacement Tyrant CNC P320 takedown lever! Crafted from solid steel and expertly CNC machined for precise fit and function, their P320 takedown lever is the perfect upgrade for your Sig Sauer P320. Tyrant CNC's takedown lever for the P320 is heat-treated for maximum durability and strength, ensuring it will stand up to even the most rigorous use. In addition to its outstanding performance, their P320 takedown lever also features a sleek bead-blasted finish that looks great and provides a non-slip grip. And to top it all off, Tyrant CNC added a PVD finish that resists wear and tear, ensuring your takedown lever will look and perform great for years to come. At Tyrant CNC, they understand that small details can make a big difference when it comes to firearm performance. That's why they designed their P320 takedown lever to be slightly oversized compared to the OEM lever. By increasing the size of the takedown lever, Tyrant CNC made it easier to manipulate, even with gloves or in high-stress situations. This can save you valuable time when disassembling your firearm, and can also make it easier to perform maintenance and cleaning tasks. But that's not all - Tyrant CNC's oversized takedown lever also doubles as a thumb support, which can help maintain accuracy in all conditions. By providing a larger surface area for your thumb to rest against, their takedown lever can help reduce muzzle movement and improve your grip on the firearm. This can be particularly useful in high-stress situations or when shooting with sweaty or wet hands. So if you're looking for a P320 takedown lever that combines superior functionality with thoughtful design, look no further than the Tyrant CNC P320 takedown lever. Trust us to help you get the most out of your Sig Sauer P320!

Safety Instruction Guide for Tyrant CNC Take Down Lever for Sig Sauer P320

Introduction

Thank you for choosing the Tyrant CNC Take Down Lever for your Sig Sauer P320. This guide provides essential safety information and instructions to ensure the safe use and installation of your product. Please read this guide carefully before use.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the take down lever by following all instructions and guidelines provided in this manual.
- **Potential Hazards:** Improper installation or use can lead to firearm malfunction or injury. Always handle firearms with care.
- **Enhanced Recalls:** Be aware that if any safety issues arise, standardized recall notices will be issued. Stay informed about product recalls through the EU's Safety Gate platform.
- **Online Shopping:** If purchased online, ensure that the seller complies with safety requirements as mandated by EU regulations.
- **Vulnerable Groups:** Keep the product out of reach of children and ensure that it is used only by individuals who are familiar with firearm safety.
- **EU Contact Point:** For safety inquiries, please refer to the appropriate EU contact point provided by the manufacturer.

Specific Safety Precautions for Use

- **Handling:** Always treat your firearm as if it is loaded. Keep the muzzle pointed in a safe direction at all times.
- **Installation:** Ensure that the firearm is unloaded before attempting to install or replace the take down lever.
- **Maintenance:** Regularly inspect the take down lever for wear or damage. Replace it if any defects are found.
- **Training:** Only individuals trained in firearm safety should handle or operate the firearm with the installed take down lever.
- **Environment:** Use the firearm in a safe and controlled environment, free from distractions and hazards.

Instructions for Installation and Usage

1. Preparation:

- Ensure the Sig Sauer P320 is unloaded.
- Gather necessary tools (if any) for installation.

2. Installation Steps:

- Remove the existing take down lever by following the manufacturer's guidelines.
- Take the new Tyrant CNC Take Down Lever and align it with the designated slot.
- Insert the lever into place, ensuring it fits securely without excessive force.
- Test the lever by moving it back and forth to ensure it operates smoothly.

3. Usage:

- To use the take down lever, simply press it as indicated in the firearm's manual to disassemble the

- firearm for cleaning or maintenance.
- Ensure proper grip and control during use to avoid accidental discharge.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the take down lever is damaged beyond repair, dispose of it responsibly. Do not throw it in regular trash; contact local waste management for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Tyrant CNC Take Down Lever, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety instructions, you will ensure a safe and effective experience with your Tyrant CNC Take Down Lever for Sig Sauer P320. Always prioritize safety and stay informed about best practices in firearm handling and maintenance.
