

ASSAULTER BELT SYSTEM V3 - GBRS GROUP ASSAULTER BELT SYSTEM V3 SMALL MULTICAM

GBRS GROUP ASSAULTER BELT SYSTEM V3 The GBRS Group Assaulter Belt utilizes a 2-belt system to create a lightweight, flexible yet rigid and stable platform to attach equipment, holsters, and accessories. This is done by using Type 13, 1-23/32" belt webbing (7000 lbs tensile strength) as the base, with a field of PALS webbing, laser cut from a semi-rigid woven thermo-polymer (patent pending). This ensures that your equipment is always secured to something rigid while allowing the belt to remain lightweight and comfortable. To round it off, we double "W" stitch the webbing to a load-rated, 1.75" AustriAlpin Cobra buckle with a D-ring for attaching helo lanyards and other equipment. The outer belt has an inner facing of "loop" style Velcro, to attach to a low profile "hook" inner belt. We did this because hooks should never be worn towards the body, especially in such a high-wear area (belt line). The inner belt system consists of a low profile "hook" inner belt with a single layer of 1.5" scuba webbing. This results in a system that doubles as a non-metallic EDC belt and is a comfortable and convenient way to cover the abrasive hook portion of the inner belt when flipped inside out. The single layer of scuba webbing allows for a rigid surface for IWB holsters to secure firmly. SPECS Outer Belt ONE-WRAP® ¾" Loop 1" & 1.5" Binding ¾" Tegriss 12 Layer AustriAlpin D-Ring COBRA® ProStyle Buckle 1.75" 18kN* Webbing Type 13, 1-23/32" Inner Belt 3610 Low Profile Loop 1.5" HTH Extruded Hook 841 1.5" Scuba Webbing 1.5" Weight: Inner and Outer Belt Total Small: 12.9 oz. Safety Instruction Guide for ASSAULTER BELT SYSTEM V3

Introduction

Thank you for choosing the GBRS Group Assaulter Belt System V3. This guide provides essential safety instructions to ensure the safe use of your product. Please read this guide carefully to understand how to properly use, install, and dispose of the Assaulter Belt System.

General Safety Guidelines

- Ensure safe use of the Assaulter Belt System by following these guidelines:
 - Always inspect the belt for any signs of wear or damage before each use.
 - Ensure that all components, including buckles and webbing, are securely fastened before use.
 - Avoid using the belt for activities it is not designed for, such as climbing or other highrisk activities.
 - Keep the belt away from sharp objects that may cause damage.
 - Store the belt in a cool, dry place when not in use to prevent deterioration.
- Be aware of any specific safety concerns related to the materials used in the belt, such as potential allergic reactions to certain polymers.

Specific Safety Precautions for Use

- When using the Assaulter Belt System:
 - Ensure the inner belt is properly secured and that the outer belt fits snugly around your waist.
 - Do not wear the hook portion of the inner belt against your body to prevent skin irritation.
 - If you experience discomfort or irritation while wearing the belt, discontinue use immediately.
 - The belt is designed for adult use only. Keep out of reach of children.
- Be cautious when attaching or detaching equipment to the belt to avoid pinching fingers or other body parts.

Instructions for Installation and Usage

1. Measuring Your Waist:

- Measure your waistline circumference to ensure you select the correct size. Do not rely on pants size.
- Size S fits waist sizes 27"32" (Ideal fit 27"31")
- Size M fits waist sizes 31"36" (Ideal fit 31"34")
- Size L fits waist sizes 35"41" (Ideal fit 35"39")
- Size XL fits waist sizes 40"50" (Ideal fit 40"46")

2. Wearing the Belt:

- Start by putting on the inner belt, ensuring that the hook side is facing outward.
- Secure the inner belt by fastening it around your waist.
- Put on the outer belt over the inner belt, aligning the Velcro to secure it in place.
- Adjust the outer belt for a snug fit, ensuring it is comfortable and secure.

3. Attaching Accessories:

- Attach any holsters or accessories to the PALS webbing on the outer belt.
- Ensure that all attachments are secure and do not obstruct movement.

4. Removing the Belt:

- To remove the belt, simply unfasten the outer belt and then the inner belt.
- Store the belt properly to maintain its integrity.

Disposal Instructions

- When the Assaulter Belt System has reached the end of its life or is no longer needed:
 - Dispose of the belt responsibly in accordance with local waste disposal regulations.
 - Avoid incinerating the belt due to the materials used.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Assaulter Belt System V3, please reach out to the designated contact point provided with your product packaging or visit the manufacturer's website for additional resources.

Note: Always stay informed about any product recalls or safety alerts through the EU's Safety Gate platform. Report any unsafe products or accidents to the relevant authorities.

Thank you for your attention to these safety instructions. Enjoy your experience with the GBRS Group Assaulter Belt System V3!
