

ASSAULTER BELT SYSTEM V3 - GBRS GROUP ASSAULTER BELT SYSTEM V3 MEDIUM MULTICAM

GBRS GROUP ASSAULTER BELT SYSTEM V3 The GBRS Group Assaulter Belt utilizes a 2-belt system to create a lightweight, flexible yet rigid and stable platform to attach equipment, holsters, and accessories. This is done by using Type 13, 1-23/32" belt webbing (7000 lbs tensile strength) as the base, with a field of PALS webbing, laser cut from a semi-rigid woven thermo-polymer (patent pending). This ensures that your equipment is always secured to something rigid while allowing the belt to remain lightweight and comfortable. To round it off, we double "W" stitch the webbing to a load-rated, 1.75" AustriAlpin Cobra buckle with a D-ring for attaching helo lanyards and other equipment. The outer belt has an inner facing of "loop" style Velcro, to attach to a low profile "hook" inner belt. We did this because hooks should never be worn towards the body, especially in such a high-wear area (belt line). The inner belt system consists of a low profile "hook" inner belt with a single layer of 1.5" scuba webbing. This results in a system that doubles as a non-metallic EDC belt and is a comfortable and convenient way to cover the abrasive hook portion of the inner belt when flipped inside out. The single layer of scuba webbing allows for a rigid surface for IWB holsters to secure firmly. SPECS Outer Belt ONE-WRAP® ¾" Loop 1" & 1.5" Binding ¾" Tegriss 12 Layer AustriAlpin D-Ring COBRA® ProStyle Buckle 1.75" 18kN* Webbing Type 13, 1-23/32" Inner Belt 3610 Low Profile Loop 1.5" HTH Extruded Hook 841 1.5" Scuba Webbing 1.5" Weight: Inner and Outer Belt Total Small: 12.9 oz. Safety Instruction Guide for the ASSAULTER BELT SYSTEM V3

Introduction

Thank you for choosing the GBRs Group Assaulter Belt System V3. This product is designed to provide a lightweight, flexible, and stable platform for attaching your equipment, holsters, and accessories. To ensure your safety and the proper use of this product, please read the following safety instructions carefully.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as outlined in this manual.
- Regularly inspect the belt for any signs of wear, damage, or defects before each use.
- Keep the product away from sharp objects and extreme temperatures to maintain its integrity.
- Store the belt in a cool, dry place when not in use.
- Do not alter or modify the belt in any way, as this may compromise its safety and functionality.

Specific Safety Precautions for Use

- Always wear the belt properly to ensure it remains secure during use.
- Ensure that the buckle is fastened correctly and securely before engaging in any activity.
- Avoid using the belt in situations where it may be exposed to excessive stress or strain beyond its rated capacity.
- If using the belt with holsters or other accessories, ensure they are compatible and securely attached.
- Be cautious when using the belt with lanyards or other equipment to prevent entanglement and injury.

Instructions for Installation and Usage

1. Preparation:

- Measure your waistline circumference to select the appropriate size.
- Ensure the area is clear of obstacles and hazards before fitting the belt.

2. Fitting the Belt:

- Place the inner belt around your waist and secure it using the Velcro hookandloop system.
- Adjust the inner belt for a snug fit without being overly tight.

3. Attaching the Outer Belt:

- Position the outer belt over the inner belt.
- Align the Velcro loop of the outer belt with the hook of the inner belt to ensure a secure attachment.
- Fasten the outer belt using the AustriAlpin Cobra buckle, ensuring it is properly locked.

4. Adjustments:

- Make any necessary adjustments to ensure comfort and security.
- Ensure that the Dring is accessible for attaching additional equipment.

5. Usage:

- When using the belt, ensure that all attached equipment is secured and does not interfere with your movement.

- Regularly check the security of the attachments during use.

Disposal Instructions

- Dispose of the product in accordance with local regulations for textile and polymer waste.
- Do not burn the belt, as this may release harmful substances.
- If the product is damaged beyond repair, consider recycling the materials where possible.

Contact Information for Further Support

For any questions or concerns regarding the product or safety instructions, please refer to the EUbased contact point provided with your purchase or visit the manufacturer's website for more information.

Conclusion

By following these safety instructions, you can ensure that the GBRS Group Assaulter Belt System V3 is used safely and effectively. Your safety is our priority, and we appreciate your commitment to using our product responsibly.
