

ASSAULTER BELT SYSTEM V3 - GBRS GROUP ASSAULTER BELT SYSTEM V3 LARGE MULTICAM

GBRS GROUP ASSAULTER BELT SYSTEM V3 The GBRS Group Assaulter Belt utilizes a 2-belt system to create a lightweight, flexible yet rigid and stable platform to attach equipment, holsters, and accessories. This is done by using Type 13, 1-23/32" belt webbing (7000 lbs tensile strength) as the base, with a field of PALS webbing, laser cut from a semi-rigid woven thermo-polymer (patent pending). This ensures that your equipment is always secured to something rigid while allowing the belt to remain lightweight and comfortable. To round it off, we double "W" stitch the webbing to a load-rated, 1.75" AustriAlpin Cobra buckle with a D-ring for attaching helo lanyards and other equipment. The outer belt has an inner facing of "loop" style Velcro, to attach to a low profile "hook" inner belt. We did this because hooks should never be worn towards the body, especially in such a high-wear area (belt line). The inner belt system consists of a low profile "hook" inner belt with a single layer of 1.5" scuba webbing. This results in a system that doubles as a non-metallic EDC belt and is a comfortable and convenient way to cover the abrasive hook portion of the inner belt when flipped inside out. The single layer of scuba webbing allows for a rigid surface for IWB holsters to secure firmly. SPECS Outer Belt ONE-WRAP® ¾" Loop 1" & 1.5" Binding ¾" Tegriss 12 Layer AustriAlpin D-Ring COBRA® ProStyle Buckle 1.75" 18kN* Webbing Type 13, 1-23/32" Inner Belt 3610 Low Profile Loop 1.5" HTH Extruded Hook 841 1.5" Scuba Webbing 1.5" Weight: Inner and Outer Belt Total Small: 12.9 oz. Safety Instruction Guide for ASSAULTER BELT SYSTEM V3

Introduction

Thank you for choosing the ASSAULTER BELT SYSTEM V3 by GBRS Group. This guide provides essential safety instructions and information to ensure your safe and effective use of this product. Please read this guide carefully before using the belt.

General Safety Guidelines

- Ensure the belt is suitable for your waist size as specified in the sizing section.
- Always inspect the belt for any signs of wear or damage before each use.
- Do not exceed the weight limits specified for the belt to avoid failure.
- Ensure that all equipment and accessories attached to the belt are secure and properly fastened.
- Keep the belt away from sharp objects and extreme heat sources.
- Do not use the belt for activities it is not designed for, such as climbing or highimpact sports.
- Store the belt in a cool, dry place when not in use to maintain its integrity.

Specific Safety Precautions for Use

- The inner belt should not be worn against the body with the hook side exposed, as this can cause discomfort or injury.
- When using holsters or attachments, ensure they are compatible with the belt system to prevent accidents.
- If using in conjunction with a Dring, ensure that it is securely fastened and not under excessive strain.
- Be cautious when adjusting the belt; ensure it is not too tight to avoid restricting movement or circulation.
- If you experience any discomfort while wearing the belt, remove it immediately and assess the fit and adjustments.

Instructions for Installation and Usage

1. Measuring Your Waist:

- Measure your waistline circumference to determine the correct belt size.
- Sizes are as follows:
 - Size S: Fits waist sizes 27"32" (Ideal fit 27"31")
 - Size M: Fits waist sizes 31"36" (Ideal fit 31"34")
 - Size L: Fits waist sizes 35"41" (Ideal fit 35"39")
 - Size XL: Fits waist sizes 40"50" (Ideal fit 40"46")

2. Attaching the Inner Belt:

- Take the inner belt and wrap it around your waist, ensuring the hook side is facing outward.
- Secure the inner belt using the Velcro, making sure it is snug but not overly tight.

3. Attaching the Outer Belt:

- Place the outer belt over the inner belt, ensuring the loop side of the Velcro adheres to the inner belt.
- Adjust the outer belt for a comfortable fit and secure it using the AustriAlpin Cobra buckle.

4. Adding Accessories:

- Attach any accessories or holsters to the PALS webbing on the outer belt.
- Ensure all attachments are securely fastened and do not obstruct movement.

5. Final Adjustments:

- Once the belt is on, perform a final check to ensure all components are secure and the belt is comfortable.
- Adjust as necessary for optimal fit and comfort.

Disposal Instructions

- Dispose of the belt in accordance with local regulations for textile and plastic waste.
- Do not incinerate the belt as it may release harmful substances.
- If the belt is damaged beyond repair, consider recycling components where possible.

Contact Information for Further Support
