

ASSAULTER BELT SYSTEM V3 - GBRS GROUP ASSAULTER BELT SYSTEM V3 LARGE BLACK

GBRS GROUP ASSAULTER BELT SYSTEM V3 The GBRS Group Assaulter Belt utilizes a 2-belt system to create a lightweight, flexible yet rigid and stable platform to attach equipment, holsters, and accessories. This is done by using Type 13, 1-23/32" belt webbing (7000 lbs tensile strength) as the base, with a field of PALS webbing, laser cut from a semi-rigid woven thermo-polymer (patent pending). This ensures that your equipment is always secured to something rigid while allowing the belt to remain lightweight and comfortable. To round it off, we double "W" stitch the webbing to a load-rated, 1.75" AustriAlpin Cobra buckle with a D-ring for attaching helo lanyards and other equipment. The outer belt has an inner facing of "loop" style Velcro, to attach to a low profile "hook" inner belt. We did this because hooks should never be worn towards the body, especially in such a high-wear area (belt line). The inner belt system consists of a low profile "hook" inner belt with a single layer of 1.5" scuba webbing. This results in a system that doubles as a non-metallic EDC belt and is a comfortable and convenient way to cover the abrasive hook portion of the inner belt when flipped inside out. The single layer of scuba webbing allows for a rigid surface for IWB holsters to secure firmly. SPECS Outer Belt ONE-WRAP® ¾" Loop 1" & 1.5" Binding ¾" Tegriss 12 Layer AustriAlpin D-Ring COBRA® ProStyle Buckle 1.75" 18kN* Webbing Type 13, 1-23/32" Inner Belt 3610 Low Profile Loop 1.5" HTH Extruded Hook 841 1.5" Scuba Webbing 1.5" Weight: Inner and Outer Belt Total Small: 12.9 oz. Safety Instruction Guide for ASSAULTER BELT SYSTEM V3

Introduction

Thank you for choosing the ASSAULTER BELT SYSTEM V3 by GBRS Group. This guide provides essential safety instructions to ensure the safe and effective use of your new product. Please read this guide carefully and follow all safety precautions.

General Safety Guidelines

- Always inspect the belt before each use for any signs of wear, damage, or malfunction.
- Ensure the belt is properly fitted to avoid slippage or detachment during use.
- Keep the belt away from sharp objects and extreme heat sources to prevent damage.
- Use the belt only for its intended purpose; do not modify or alter it in any way.
- Store the belt in a cool, dry place when not in use to maintain its integrity.
- Be aware of your surroundings and avoid using the belt in hazardous environments.
- Monitor the belt's performance regularly, especially if used in highstress situations.

Specific Safety Precautions for Use

- Ensure that the inner "hook" belt is properly attached to the outer "loop" belt before use.
- Do not wear the "hook" side of the inner belt facing towards your body to prevent skin irritation or injury.
- When using holsters or attachments, ensure they are securely fastened to the PALS webbing.
- Avoid overloading the belt with equipment beyond its rated capacity.
- If using the belt in conjunction with other gear, ensure compatibility to prevent accidents.
- Follow all manufacturer guidelines for compatible holsters and accessories.

Instructions for Installation and Usage

1. Fitting the Belt:

- Measure your waistline circumference to determine the correct size.
- Select the appropriate belt size based on the sizing chart provided.
- Adjust the belt to fit snugly but comfortably around your waist.

2. Attaching the Inner Belt:

- Place the inner "hook" belt around your waist.
- Ensure the "hook" side is facing outward and securely attach it to the inner facing of the outer belt.

3. Securing Equipment:

- Attach any holsters or accessories to the PALS webbing on the outer belt.
- Ensure all attachments are firmly secured before engaging in any activities.

4. Final Check:

- After fitting and attaching all equipment, perform a final check to ensure everything is secure.
- Test the belt's stability by moving around to ensure it stays in place.

Disposal Instructions

- When the belt reaches the end of its useful life, dispose of it according to local regulations for textile and polymer products.
- Do not dispose of the belt in regular household waste if it contains hazardous materials.
- Consider recycling options where available to minimize environmental impact.

Contact Information for Further Support

For any inquiries or concerns regarding the ASSAULTER BELT SYSTEM V3, please contact your local distributor or the manufacturer directly. They can provide additional support and information regarding safety and usage.

By following these safety guidelines and instructions, you can ensure that your ASSAULTER BELT SYSTEM V3 is used safely and effectively. Thank you for your attention to these important safety measures.
