

ASSAULTER BELT SYSTEM V3 - GBRS GROUP ASSAULTER BELT SYSTEM V3 X-LARGE BLACK

GBRS GROUP ASSAULTER BELT SYSTEM V3 The GBRS Group Assaulter Belt utilizes a 2-belt system to create a lightweight, flexible yet rigid and stable platform to attach equipment, holsters, and accessories. This is done by using Type 13, 1-23/32" belt webbing (7000 lbs tensile strength) as the base, with a field of PALS webbing, laser cut from a semi-rigid woven thermo-polymer (patent pending). This ensures that your equipment is always secured to something rigid while allowing the belt to remain lightweight and comfortable. To round it off, we double "W" stitch the webbing to a load-rated, 1.75" AustriAlpin Cobra buckle with a D-ring for attaching helo lanyards and other equipment. The outer belt has an inner facing of "loop" style Velcro, to attach to a low profile "hook" inner belt. We did this because hooks should never be worn towards the body, especially in such a high-wear area (belt line). The inner belt system consists of a low profile "hook" inner belt with a single layer of 1.5" scuba webbing. This results in a system that doubles as a non-metallic EDC belt and is a comfortable and convenient way to cover the abrasive hook portion of the inner belt when flipped inside out. The single layer of scuba webbing allows for a rigid surface for IWB holsters to secure firmly. SPECS Outer Belt ONE-WRAP® ¾" Loop 1" & 1.5" Binding ¾" Tegriss 12 Layer AustriAlpin D-Ring COBRA® ProStyle Buckle 1.75" 18kN* Webbing Type 13, 1-23/32" Inner Belt 3610 Low Profile Loop 1.5" HTH Extruded Hook 841 1.5" Scuba Webbing 1.5" Weight: Inner and Outer Belt Total Small: 12.9 oz. Safety Instruction Guide for ASSAULTER BELT SYSTEM V3

Introduction

Thank you for choosing the ASSAULTER BELT SYSTEM V3 by GBRS Group. This guide provides essential safety instructions to ensure the safe use of your product. Please read this guide carefully before using the belt system.

General Safety Guidelines

- Ensure the belt is suitable for your waist size as per the sizing chart to avoid discomfort or accidents during use.
- Regularly inspect the belt for any signs of wear or damage before each use.
- Do not exceed the weight limit specified for the belt to maintain its integrity and safety.
- Always secure all equipment and accessories properly to prevent accidental detachment.
- Keep the belt away from sharp objects and extreme heat sources to avoid damage.
- Store the belt in a cool, dry place when not in use to prolong its lifespan.
- Do not use the belt for activities it is not designed for, such as climbing or heavy loadbearing.

Specific Safety Precautions for Use

- The inner belt should not be worn with the hook side against the body to prevent abrasions and discomfort.
- Ensure that all Velcro components are fully engaged before use to guarantee stability.
- When attaching holsters or pouches, verify that they are securely fastened to the PALS webbing.
- Avoid using the belt in wet conditions, as moisture may affect the performance of the materials.
- If you experience any discomfort or irritation while wearing the belt, remove it immediately and consult a professional.

Instructions for Installation and Usage

1. Sizing the Belt:

- Measure your waistline circumference to select the correct size:
 - Size S: Fits waist sizes 27"32" (Ideal fit 27"31")
 - Size M: Fits waist sizes 31"36" (Ideal fit 31"34")
 - Size L: Fits waist sizes 35"41" (Ideal fit 35"39")
 - Size XL: Fits waist sizes 40"50" (Ideal fit 40"46")

2. Putting on the Belt:

- Start with the inner belt. Place it around your waist with the hook side facing inward.
- Secure the inner belt by overlapping the ends and pressing the hook into the loop.

3. Attaching the Outer Belt:

- Place the outer belt around the inner belt, ensuring the loop side is facing the inner belt.
- Adjust the outer belt for a snug fit, ensuring it does not impede movement.

4. Securing Equipment:

- Attach holsters and pouches to the PALS webbing on the outer belt.

- Ensure all attachments are securely fastened and check for stability before use.

5. Removing the Belt:

- To remove, first detach any equipment or accessories.
- Unfasten the outer belt and inner belt, and remove them from your waist.

Disposal Instructions

- Dispose of the belt in accordance with local regulations regarding textile and polymer waste.
- Consider recycling components where possible to minimize environmental impact.
