

ASSAULTER BELT SYSTEM V3 - GBRS GROUP ASSAULTER BELT SYSTEM V3 LARGE COYOTE BROWN

GBRS GROUP ASSAULTER BELT SYSTEM V3 The GBRS Group Assaulter Belt utilizes a 2-belt system to create a lightweight, flexible yet rigid and stable platform to attach equipment, holsters, and accessories. This is done by using Type 13, 1-23/32" belt webbing (7000 lbs tensile strength) as the base, with a field of PALS webbing, laser cut from a semi-rigid woven thermo-polymer (patent pending). This ensures that your equipment is always secured to something rigid while allowing the belt to remain lightweight and comfortable. To round it off, we double "W" stitch the webbing to a load-rated, 1.75" AustriAlpin Cobra buckle with a D-ring for attaching helo lanyards and other equipment. The outer belt has an inner facing of "loop" style Velcro, to attach to a low profile "hook" inner belt. We did this because hooks should never be worn towards the body, especially in such a high-wear area (belt line). The inner belt system consists of a low profile "hook" inner belt with a single layer of 1.5" scuba webbing. This results in a system that doubles as a non-metallic EDC belt and is a comfortable and convenient way to cover the abrasive hook portion of the inner belt when flipped inside out. The single layer of scuba webbing allows for a rigid surface for IWB holsters to secure firmly. SPECS Outer Belt ONE-WRAP® ¾" Loop 1" & 1.5" Binding ¾" Tegriss 12 Layer AustriAlpin D-Ring COBRA® ProStyle Buckle 1.75" 18kN* Webbing Type 13, 1-23/32" Inner Belt 3610 Low Profile Loop 1.5" HTH Extruded Hook 841 1.5" Scuba Webbing 1.5" Weight: Inner and Outer Belt Total Small: 12.9 oz. Safety Instruction Guide for ASSAULTER BELT SYSTEM V3

Introduction

Thank you for choosing the ASSAULTER BELT SYSTEM V3 by GBRS Group. This product is designed to provide a secure and comfortable platform for attaching equipment, holsters, and accessories. It is important to follow the safety guidelines and instructions outlined in this document to ensure safe use and maximize the performance of the belt system.

General Safety Guidelines

- Always inspect the belt for any signs of wear, damage, or defects before each use.
- Ensure that all components are securely fastened and in good condition.
- Do not exceed the weight limit specified for the belt system to avoid failure.
- Avoid using the belt in conditions that may compromise its integrity, such as exposure to extreme heat, chemicals, or sharp objects.
- Keep the belt out of reach of children and vulnerable individuals who may not understand its use and potential hazards.
- Report any unsafe product experiences or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that the belt is worn correctly and adjusted to fit securely around your waist.
- Do not wear the hook portion of the inner belt against your body to prevent skin irritation or injury.
- When attaching equipment, ensure that it is properly secured to the PALS webbing to prevent accidental detachment.
- Avoid overloading the belt with excessive gear, as this may lead to instability and discomfort.
- Be cautious when using the Dring for attaching helo lanyards or other equipment to avoid entanglement hazards.

Instructions for Installation and Usage

1. Wearing the Belt:

- Start by threading the inner belt through your pants' belt loops, ensuring it is positioned comfortably.
- Attach the outer belt by aligning the "loop" side of the inner belt with the "hook" side of the outer belt.
- Adjust the outer belt to fit securely around your waist, ensuring that it is not too tight or too loose.

2. Attaching Equipment:

- Use the PALS webbing on the outer belt to attach holsters and other accessories.
- Ensure that all attachments are securely fastened and do not obstruct movement.

3. Adjusting the Fit:

- To adjust the fit, simply pull on the outer belt to tighten or loosen as needed.
- Ensure that the buckle is securely fastened and that the Dring is accessible for any attachments.

4. Removing the Belt:

- To remove the belt, unfasten the buckle and carefully slide the outer belt off.
- Remove the inner belt from your pants' belt loops.

Disposal Instructions

- Dispose of the ASSAULTER BELT SYSTEM V3 responsibly at the end of its life cycle.
- Do not dispose of the belt in regular household waste. Instead, check for local recycling programs that accept textile materials.
- If the belt is damaged beyond use, consider contacting your local waste management facility for proper disposal methods.

Contact Information for Further Support

For any additional inquiries or support regarding the ASSAULTER BELT SYSTEM V3, please consult the manufacturer or your place of purchase. Ensure that you have the product details on hand for efficient assistance.

This safety instruction guide is designed to help you understand the safe use and maintenance of the ASSAULTER BELT SYSTEM V3. By following these guidelines, you can ensure a safe and effective experience with your product.
