

ASSAULTER BELT SYSTEM V3 - GBRS GROUP ASSAULTER BELT SYSTEM V3 LARGE RANGER GREEN

GBRS GROUP ASSAULTER BELT SYSTEM V3 The GBRS Group Assaulter Belt utilizes a 2-belt system to create a lightweight, flexible yet rigid and stable platform to attach equipment, holsters, and accessories. This is done by using Type 13, 1-23/32" belt webbing (7000 lbs tensile strength) as the base, with a field of PALS webbing, laser cut from a semi-rigid woven thermo-polymer (patent pending). This ensures that your equipment is always secured to something rigid while allowing the belt to remain lightweight and comfortable. To round it off, we double "W" stitch the webbing to a load-rated, 1.75" AustriAlpin Cobra buckle with a D-ring for attaching helo lanyards and other equipment. The outer belt has an inner facing of "loop" style Velcro, to attach to a low profile "hook" inner belt. We did this because hooks should never be worn towards the body, especially in such a high-wear area (belt line). The inner belt system consists of a low profile "hook" inner belt with a single layer of 1.5" scuba webbing. This results in a system that doubles as a non-metallic EDC belt and is a comfortable and convenient way to cover the abrasive hook portion of the inner belt when flipped inside out. The single layer of scuba webbing allows for a rigid surface for IWB holsters to secure firmly. SPECS Outer Belt ONE-WRAP® ¾" Loop 1" & 1.5" Binding ¾" Tegriss 12 Layer AustriAlpin D-Ring COBRA® ProStyle Buckle 1.75" 18kN* Webbing Type 13, 1-23/32" Inner Belt 3610 Low Profile Loop 1.5" HTH Extruded Hook 841 1.5" Scuba Webbing 1.5" Weight: Inner and Outer Belt Total Small: 12.9 oz. Safety Instruction Guide for the ASSAULTER BELT SYSTEM V3

Introduction

Thank you for purchasing the ASSAULTER BELT SYSTEM V3 by GBRS Group. This safety instruction guide is designed to ensure the safe use and care of your product, in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the Assaulter Belt System to understand its features, safety precautions, and proper usage.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this guide.
- Regularly inspect the belt for any signs of wear or damage before each use.
- Do not exceed the recommended weight limit for equipment attachment.
- Keep the belt away from sharp objects and extreme heat sources to prevent damage.
- Store the belt in a cool, dry place when not in use.
- Always secure equipment properly to prevent accidental detachment during use.
- If you notice any defect or malfunction, discontinue use immediately and consult the manufacturer.

Specific Safety Precautions for Use

- The inner belt should be worn against the body, with the hook side facing outward to avoid discomfort and potential injury.
- Ensure that the buckle is securely fastened before use. A loose buckle may lead to equipment failure.
- When using the belt with holsters, ensure that they are compatible and securely attached.
- Be cautious when using the Dring for attaching helo lanyards; ensure it is used as intended.
- Avoid using the belt for activities that may expose it to excessive force or impact unless specified by the manufacturer.
- This product is not designed for use by children. Keep out of reach of children to prevent accidents.

Instructions for Installation and Usage

1. Wearing the Belt:

- Place the inner belt around your waist and secure it with the hook side facing outward.
- Adjust the inner belt to fit snugly but comfortably.
- Attach the outer belt over the inner belt, ensuring the Velcro loops align properly.
- Secure the outer belt using the AustriAlpin Cobra buckle. Make sure it is tightly fastened.

2. Attaching Equipment:

- Use the PALS webbing on the outer belt to attach holsters, pouches, or other accessories.
- Ensure that all attachments are secured and do not interfere with movement.
- Regularly check attachments for security during use.

3. Adjusting the Fit:

- If the belt feels loose or uncomfortable, readjust the inner belt for a better fit.
- Do not modify the belt or its components in any way that could compromise safety.

4. Removing the Belt:

- To remove the belt, unfasten the AustriAlpin Cobra buckle and carefully detach the outer belt from the inner belt.
- Store the belt properly to maintain its condition.

Disposal Instructions

- At the end of its life cycle, dispose of the belt in accordance with local regulations for textile and polymer waste.
- Do not burn the belt, as it may release harmful substances.
- If the belt is damaged beyond use, consider recycling materials where possible.

Contact Information for Further Support

For any safety inquiries, product recalls, or additional information regarding your ASSAULTER BELT SYSTEM V3, please contact the manufacturer or authorized retailer. Always refer to the official website or customer service for the latest updates and support.

By following these safety instructions, you can ensure a safe and effective experience with your ASSAULTER BELT SYSTEM V3. Thank you for choosing GBRS Group, and stay safe!
