

# UNITY™ TACTICAL AXON™ SWITCH WITH SUREFIRE®/CRANE LASER LEADS - GBRS GROUP UNITY TACT AXON SWITCH 7" SUREFIRE/14" CRANE LASER LEAD BLK

GBRS GROUP UNITY™ TACTICAL AXON™ SWITCH WITH SUREFIRE®/CRANE LASER LEADS The pinnacle of remote switch design for weapon-mounted accessories, UNITY™ Tactical's AXON™ provides complete control of lights and lasers in a single, compact and rugged housing. AXON™ is the direct result of operational feedback from professional end-users on their industry-leading switch technology. Lights and lasers can be fired from individual buttons with versions available for popular issued devices. Standard AXON™ models feature each button firing devices independently. SYNC models fire the laser independently (flat button), while the angled button will fire both light and laser simultaneously. NGAL variants operate in a SYNC capacity, but offer a visible override feature for light and laser. AXON™ mounts directly to M1913 Rail or M-LOK® (w/ optional UNITY™ M-LOK® Mounting Kit), while the Rail Clamps feature pass-throughs for zip ties. Its unique design provides tactile differentiation between the two buttons to eliminate confusion in dark, cold and high-stress situations. The light (angled) button features a switch that allows for both momentary and constant activation, while the laser (flat) button features a momentary-only button that supports the laser's double-click-for-constant-on feature. GBRS Group is the exclusive retailer of AXON™ 10" and 14" models with extended-length cables, which complements use with their Hydra mount. GBRS offers AXON™ Mode Select models with 7" SureFire® cables or 7" Link™ USB-C with either 10" Crane cables, 14" Crane cables, or 14" NGAL cables. SPECS Rail Mount: MIL-STD M1913, M-LOK® (w/ optional UNITY™ M-LOK® Mounting Kit) Dimensions: 1.3"W x 2.8"L x 1.1"H (3.3 x 7.1 x 2.8 cm) Weight: 1.7 oz (48.2g) Material: High-Impact Polymer Cable Length: 7" SureFire® Cable / 10" Crane Cable, 7" SureFire® Cable / 14" Crane Cable Recommended Torque: 5 In./Lbs (0.57 Nm) \*NOTE: Over-torquing fasteners can damage your mount and/or your optic and will void your warranty. # Safety Instruction Guide for UNITY™ Tactical AXON™ Switch

## Introduction

Thank you for choosing the UNITY™ Tactical AXON™ Switch with SureFire®/Crane Laser Leads. This product is designed for the safe and effective operation of weaponmounted accessories. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- **Product Safety:** This product has been designed to ensure safe use. Always follow the guidelines provided in this manual to minimize risks.
- **Enhanced Recalls:** In the event of a safety issue, standardized recall notices will be issued. You may receive remedies free of charge for dangerous products.
- **Online Shopping:** If purchased online, this product is subject to the same safety protections as those bought in physical stores.
- **Special Consumer Focus:** Extra safeguards are in place for vulnerable groups, including children. Keep this product out of reach of children.
- **EU Contact Point:** For safety inquiries, refer to the EUbased contact provided with your purchase.
- **Rapid Alerts:** Stay updated on unsafe products via the Safety Gate system.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Improper installation may lead to malfunction.
  - Overtorquing can damage the mount and void the warranty.
  - Keep the product away from moisture and extreme temperatures.
- **Avoiding Hazards:**
  - Ensure the switch is securely attached to the weapon before use.
  - Do not use if the product shows signs of damage or wear.
  - Always test the functionality of lights and lasers before operational use.
- **AgeSpecific Warnings:**
  - This product is intended for adult users.
  - Ensure that only trained personnel operate the device.

## Instructions for Installation and Usage

- **Installation Instructions:**
  1. Ensure the weapon is unloaded and safe before installation.
  2. Mount the AXON™ Switch directly to the M1913 Rail or MLOK® using the optional UNITY™ MLOK® Mounting Kit.
  3. Use the Rail Clamps to secure the switch, ensuring that the passthroughs are utilized for zip ties if needed.
  4. Confirm that the switch is firmly attached and does not move.
- **Usage Instructions:**

- **Button Functions:**
- The angled button activates the light and can be used for both momentary and constant activation.
- The flat button activates the laser and supports the doubleclickforconstanton feature.
- **Testing:**
- After installation, test each button to ensure proper functionality before operational use.
- **Maintenance:**
- Regularly check the switch for any signs of wear or damage.
- Clean the surface with a dry cloth to remove dust and debris.

## Disposal Instructions

- **Disposal of Product:**

- Dispose of this product in accordance with local regulations regarding electronic waste.
- Do not dispose of in household waste. Look for designated collection points for electronic devices.

- **Battery Disposal** (if applicable):

- If the product contains batteries, remove them before disposal.
- Dispose of batteries at a designated battery recycling location.
