

UNITY™ TACTICAL AXON™ SWITCH SYNC W/LINK™ USB-C/NGAL LASER LEADS - GBRS GROUP UNITY TACT AXON SWITCH SYNC/7" LINK USB-C/14" NGAL LASER FDE

GBRS GROUP UNITY™ TACTICAL AXON™ SWITCH SYNC W/LINK™ USB-C/NGAL LASER LEADS The pinnacle of remote switch design for weapon-mounted accessories, UNITY™ Tactical's AXON™ provides complete control of lights and lasers in a single, compact and rugged housing. AXON™ is the direct result of operational feedback from professional end-users on our industry-leading switch technology. Lights and lasers can be fired from individual buttons with versions available for popular issued devices. Standard AXON™ models feature each button firing devices independently. SYNC models fire the laser independently (flat button), while the angled button will fire both light and laser simultaneously. NGAL variants operate in a SYNC capacity, but offer a visible override feature for light and laser. AXON™ mounts directly to M1913 Rail or M-LOK® (w/ optional UNITY™ M-LOK® Mounting Kit), while the Rail Clamps feature pass-throughs for zip ties. Its unique design provides tactile differentiation between the two buttons to eliminate confusion in dark, cold and high-stress situations. The light (angled) button features a switch that allows for both momentary and constant activation, while the laser (flat) button features a momentary-only button that supports the laser's double-click-for-constant-on feature. GBRS Group is the exclusive retailer of AXON™ 10" and 14" models with extended-length cables, which complements use with our Hydra mount. GBRS offers AXON™ Mode Select models with 7" SureFire® cables or 7" Link™ USB-C with either 10" Crane cables, 14" Crane cables, or 14" NGAL cables. SPECS Rail Mount: MIL-STD M1913, M-LOK® (w/ optional UNITY™ M-LOK® Mounting Kit) Dimensions: 1.3"W x 2.8"L x 1.1"H (3.3 x 7.1 x 2.8 cm) Weight: 1.7 oz (48.2g) Material: High-Impact Polymer Cable Length: 7" SureFire® Cable / 10" Crane Cable, 7" SureFire® Cable / 14" Crane Cable, 7" SureFire® Cable / 14" NGAL Cable (Mode Select), 7" Link™ USB-C Cable / 10" Crane Cable, 7" Link™ USB-C Cable / 14" Crane Cable, or 7" Link™ USB-C Cable / 14" NGAL Cable (Mode Select) Recommended Torque: 5 In./Lbs (0.57 Nm) COMPATIBILITY Link™ USB-C System NGAL (LA-23/PEQ) WARRANTY: One-Year Warranty through UNITY™ Tactical. Safety Instruction Guide for UNITY Tactical AXON Switch Sync

Introduction

Thank you for choosing the UNITY Tactical AXON Switch Sync. This product is designed to enhance your control over weaponmounted accessories. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always follow the manufacturer's instructions for safe use.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product regularly for signs of wear or damage.
- Do not use the product if it appears damaged or malfunctioning.
- Report any unsafe conditions or incidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Electrical Safety:**
 - Ensure that all connections are secure before use.
 - Avoid using the product in wet or damp conditions to prevent electrical hazards.
- **Operational Safety:**
 - Use the product only for its intended purpose as outlined in the instructions.
 - Avoid operating the device in highstress situations where confusion may occur.
- **Environmental Safety:**
 - Store the product in a cool, dry place away from direct sunlight.
 - Do not expose the product to extreme temperatures or harsh chemicals.

Instructions for Installation and Usage

Installation

1. Mounting:

- The AXON Switch Sync can be mounted directly to M1913 Rail or MLOK® using the optional UNITY MLOK Mounting Kit.
- Ensure the mounting surface is clean and free from debris.
- Use the provided hardware to secure the switch in place, ensuring it is tight but not overtorqued. Recommended torque is 5 In./Lbs (0.57 Nm).

2. Cable Connection:

- Connect the appropriate cable (7" SureFire® or 7" Link™ USBC) to the device.
- Ensure the cable is routed away from any moving parts or potential pinch points.

Usage

1. Operating the Switch:

- The AXON Switch features two buttons:
 - The angled button activates the light.

- The flat button activates the laser.
- For SYNC models, the laser can be fired independently using the flat button, while the angled button activates both the light and laser.
- Use the momentary function by pressing and holding the buttons, or use the constanton feature by doubleclicking the laser button.

2. Identifying Buttons:

- The design provides tactile differentiation to help you identify buttons by touch, minimizing confusion in lowlight conditions.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of electrical components with regular household waste.
- Check for local recycling programs that accept electronic devices.

Contact Information for Further Support

For further assistance or inquiries regarding safety, please refer to the official UNITY Tactical website or your local retailer.

By following these safety instructions, you can maximize the performance and longevity of the UNITY Tactical AXON Switch Sync while ensuring your safety and the safety of others. Thank you for your attention to these important guidelines.
