

UNITY TACTICAL AXON™ SL SWITCH W/CRANE LASER LEAD - GBRS GROUP

UNITY TACTICAL AXON SL SWITCH W/14" CRANE LASER LEAD BLACK

GBRS GROUP UNITY TACTICAL AXON™ SL SWITCH W/CRANE LASER LEAD

UNITY™ Tactical's AXON™ SL is the smaller, single button switch in the AXON™ family. It features a 45-degree angled button face for an ergonomically correct activation angle, making it easy to index under stress, while wearing PPE or facing extreme environmental conditions. Molded from high-impact polymer, AXON™ SL holds up to abuse in the field. The mechanical switch design allows weapon light models to fire in both momentary and constant-on modes in a familiar click tailcap design. Laser versions utilize a momentary only switch to facilitate use with the native double-click-for-constant-on feature found in most common lasers on the market. AXON™ SL mounts directly to M1913 Rail or M-LOK® (w/ optional UNITY™ M-LOK® Mounting Kit). GBRS Group is the exclusive retailer of AXON™ 10" and 14" models with extended-length cables, which complements use with their Hydra mount. GBRS offers AXON™ SL models with 10" Crane cables, 14" Crane cables, or 14" NGAL cables. SPECS Rail Mount: MIL-STD M1913, M-LOK® (w/ optional UNITY™ M-LOK® Mounting Kit) Dimensions: 1.3"W x 1.7"L x 1.1"H (3.3 x 4.3 x 2.8 cm) Weight: 1.5 oz (42.5g) Material: High-Impact Polymer Cable Length: 10" Crane Cable, 14" Crane Cable Recommended Torque: 5 In./Lbs (0.57 Nm) *NOTE: Over-torquing fasteners can damage your mount and/or your optic and will void your warranty. Using thread locking compounds, such as Loctite® or others, is not recommended and will void your warranty. WARRANTY: One-Year Warranty through UNITY™ Tactical. For more info visit UNITY™ Tactical.

Safety Instruction Guide for UNITY TACTICAL AXON™ SL SWITCH W/CRANE LASER LEAD

Introduction

Thank you for choosing the UNITY TACTICAL AXON™ SL SWITCH W/CRANE LASER LEAD. This guide provides essential safety instructions, usage guidelines, and disposal information to ensure your safety and the effective use of this product. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure the product is used in accordance with the manufacturer's instructions to prevent accidents.
- Keep the product out of reach of children and vulnerable individuals to avoid misuse or injury.
- Regularly inspect the product for any signs of damage or wear. Do not use if damaged.
- Use the product only for its intended purpose as described in this guide.
- Be aware of your surroundings and any potential hazards while using the product.
- In case of any malfunction or safety concern, discontinue use immediately and consult the manufacturer.

Specific Safety Precautions for Use

- **Electrical Safety:** Ensure that the switch and laser lead are compatible with your weapon light and follow all electrical safety guidelines.
- **Environmental Conditions:** Avoid using the product in extreme weather conditions that could compromise its functionality.
- **Installation:** Follow the installation instructions carefully to avoid improper mounting that may lead to accidents.
- **Torque Settings:** Adhere to the recommended torque settings during installation to prevent damage to the mount or optic.
- **Use of Thread Locking Compounds:** Do not use thread locking compounds, such as Loctite®, as this may void your warranty and affect product performance.
- **Maintenance:** Regularly clean and maintain the product to ensure optimal performance. Check for any loose connections or wear.

Instructions for Installation and Usage

1. Installation:

- Ensure the weapon is unloaded and safe before installation.
- Mount the AXON™ SL Switch directly to the M1913 Rail or MLOK® using the optional UNITY™ MLOK® Mounting Kit.
- Use the recommended torque of 5 In./Lbs (0.57 Nm) during installation.
- Confirm that the switch is securely attached and functions correctly.

2. Usage:

- To activate the weapon light, press the button on the AXON™ SL Switch.
- For momentary activation, press and hold the button. For constant mode, click the button until it clicks into place.
- Laser versions will only function in momentary mode. Familiarize yourself with the doubleclick feature for constant operation.
- Always ensure that the area is clear before activating the weapon light or laser.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding electronic waste.
- Do not dispose of the product in household waste. Seek out designated ewaste recycling facilities.
- Remove batteries (if applicable) and dispose of them separately according to local guidelines.
