

MATCHMASTER BULLET SEATER DIES - RCBS 7.62X39MM

MATCHMASTER BULLET SEATING DIE

RCBS MATCHMASTER BULLET SEATER DIES Matchmaster dies are the pinnacle of reloading dies with rich features, outstanding fit and finish, and unbeatable accuracy. Available in both full-length size and neck-size sets, as well as a stand-alone seater die, you will enjoy years of use from Matchmaster dies. Each die is made from case hardened steel, the inside surfaces are precision-drilled and reamed to exacting standards, and hand polished. The Matchmaster seater die is beautifully machined, polished, and finished off with a deep blued finish like on the finest firearms. The large, oversized adjustment knob on the Matchmaster seater die has oversized letters and hash marks making it both precise to turn as well as easy to read. Dial one thousandth of an inch, and that is exactly what you will get. The seater also features RCBS exclusive loading window which allows you to drop the bullet in and simply run the press to seat your bullet. No more trying to balance a bullet on a case mouth or putting fingers in danger. The internal sleeve catches and holds the bullet in perfect alignment with the case and guides it during the seating operation for astoundingly concentric results. FEATURES Bullet Seating Die Only Bullet seating window with bullet retention system Large Oversize Micrometer for easy adjustments free-floating, self-centering bullet seating stem Standard 7/8"-14 Thread Limited Lifetime Warranty Made in USA

Safety Instruction Guide for RCBS Matchmaster Bullet Seater Dies

Introduction

Thank you for purchasing the RCBS Matchmaster Bullet Seater Dies. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. By following these instructions, you can minimize risks and enjoy a reliable reloading experience.

General Safety Guidelines

- Always follow the manufacturer's instructions for use.
- Keep all reloading equipment out of reach of children and unauthorized users.
- Use safety glasses and appropriate protective gear while operating reloading equipment.
- Ensure your workspace is clean and organized to prevent accidents.
- Store all components, including dies and tools, in a secure location when not in use.
- Regularly inspect your equipment for signs of wear or damage. Replace any damaged parts immediately.
- Do not attempt to modify the die or its components in any way.
- Be aware of your surroundings and ensure that no distractions are present while reloading.

Specific Safety Precautions for Use

- Ensure that the bullet seater die is securely installed in your reloading press before use.
- Always check that the die is clean and free of debris before inserting a bullet.
- Use only the correct caliber bullets and cases as specified for the 7.62 x 39 mm cartridge.
- Never exceed the recommended load specifications for your ammunition.
- When seating bullets, maintain a firm grip on the press handle and apply steady pressure.
- Avoid placing fingers near the die's moving parts during operation.
- If you experience any resistance or unusual sounds while operating the press, stop immediately and inspect the equipment.

Instructions for Installation and Usage

Installation

1. **Prepare Your Workspace:** Ensure your reloading area is clean and welllit.
2. **Gather Tools:** You will need the Matchmaster Bullet Seater Die, a reloading press, and appropriate caliber bullets and cases.
3. **Install the Die:**
 - Remove the existing die from your reloading press if applicable.
 - Insert the Matchmaster Bullet Seater Die into the press, ensuring it is properly aligned.
 - Secure the die by tightening the locking ring.
4. **Adjust the Die:**
 - Use the large oversized micrometer to set the desired bullet seating depth.
 - Make sure the adjustment knob is easily readable and turned precisely.

Usage

1. **Prepare Cases:** Ensure that the cases are clean and properly sized for reloading.
2. **Insert Bullet:** Place a bullet into the loading window of the die.
3. **Operate the Press:**
 - Pull the press handle down smoothly to seat the bullet.
 - Monitor the process to ensure the bullet is seated correctly.
4. **Inspect the Finished Round:** After seating, check the overall length and ensure the bullet is seated to

the desired depth.

5. **Repeat:** Continue the process for additional rounds, maintaining the same careful procedures.

Disposal Instructions

- Dispose of any reloading materials, including unused powder, primers, and cases, in accordance with local regulations.
- Do not throw away any components in regular household waste.
- Contact your local waste management facility for guidance on safe disposal methods.

Contact Information for Further Support
