

DEBURRING TOOL POWER ADAPTER - L.E. WILSON, INC.

DEBURRING TOOL POWER ADAPTER

L.E. WILSON, INC. DEBURRING TOOL POWER ADAPTER Looking to save time on your reloading bench? The L.E. Wilson Deburring Tool Power Adapter allows you to power your deburring process with accuracy and less fatigue. All cases should be case mouth deburred after trimming and neck turning. Use the power adaptor with your WILSON burring tool to speed up your processing time. Why Use the Power Adapter? Set screws on either side help center the tool, less wobble than other designs. Speeds up your case prep workflow significantly. Reduces fatigue from repetitive manual operation. Maintains accuracy while using powered tools. Deburring Tool Sold Separately
Compatibility and Power Source Note: This adapter is designed to be used with a power screwdriver, not a drill. It provides better control and smoother rotation for precision deburring.

Safety Instruction Guide for L.E. Wilson Deburring Tool Power Adapter

Introduction

Thank you for choosing the L.E. Wilson Deburring Tool Power Adapter. This guide provides essential safety instructions and usage guidelines to ensure your safety and the effective operation of this product. Please read this manual carefully before using the power adapter.

General Safety Guidelines

- Ensure safe use of the power adapter by following these guidelines:
 - Always use the adapter as intended and according to the manufacturer's instructions.
 - Be aware of potential hazards associated with electrical tools and take necessary precautions.
 - Keep the power adapter and associated tools away from children and vulnerable individuals.
 - Regularly inspect the power adapter for any signs of damage before use. Do not use if damaged.
 - Store the power adapter in a dry place, away from moisture and extreme temperatures.

Specific Safety Precautions for Use

- When using the L.E. Wilson Deburring Tool Power Adapter, observe the following precautions:
 - Use only with a power screwdriver, not a drill, to ensure better control and smoother rotation.
 - Make sure the tool is securely attached to the adapter before use to prevent accidents.
 - Avoid wearing loose clothing or jewelry that could become entangled in the tool.
 - Always operate the tool with both hands for better control.
 - Disconnect the power source when changing tools or making adjustments.
 - Use safety goggles and gloves to protect your eyes and hands from debris during operation.
 - Do not exceed the recommended speed settings for the power screwdriver used with the adapter.

Instructions for Installation and Usage

1. Installation:

- Ensure that the power screwdriver is unplugged.
- Attach the L.E. Wilson Deburring Tool Power Adapter securely to the power screwdriver.
- Confirm that the set screws on either side are tightened to center the tool properly.

2. Usage:

- Plug in the power screwdriver and turn it on to the desired speed setting.
- Hold the case firmly and position the deburring tool at the case mouth.
- Allow the adapter to perform the deburring process without excessive pressure.
- After use, turn off and unplug the power screwdriver before detaching the adapter.

Disposal Instructions

- Dispose of the L.E. Wilson Deburring Tool Power Adapter in accordance with local regulations regarding electronic waste.
- Do not dispose of the adapter in regular household waste.
- Consider recycling the product or returning it to a designated electronic waste collection point.

Contact Information for Further Support

- For safety inquiries or additional support, please refer to the manufacturer's website or customer service contact details provided with your purchase.

By following these safety instructions, you can ensure a safe and effective experience with the L.E. Wilson Deburring Tool Power Adapter. Thank you for your attention to these important guidelines.
