L.E. WILSON, INC. SUPER JUICE BRASS CLEANER Keep your brass cases in pristine condition with the L.E. Wilson Inc. Brass Cleaning Juice, a concentrated cleaning solution designed for use in ultrasonic and rotary-style case cleaners. This non-combustible, low-foaming formula effectively removes tarnish, carbon buildup, and metal oxides, leaving your brass clean, bright, and ready for action. FEATURES Wilson Super Juice is a non-toxic formula specially made to clean brass cases. Quickly eliminates most tarnish, oxidation and carbon building on brass cartridges. Works with various brands of tumblers and sonic cleaners. Concentrate solution (32oz container), 3oz to every gallon (128oz) of water This solution is manufactured exclusively for L.E. Wilson Inc. L.E. Wilson Inc. Brass Cleaning Juice Keep your brass cases in pristine condition with the L.E. Wilson Inc. Brass Cleaning Juice, a concentrated cleaning solution designed for use in ultrasonic and rotary-style case cleaners. This non-combustible, low-foaming formula effectively removes tarnish, carbon buildup, and metal oxides, leaving your brass clean, bright, and ready for action. Key Features Thorough Cleaning: Cleans the interior, exterior, and primer pockets of brass cases (ensure spent primers are removed before cleaning). Enhanced Finish: Produces brilliant, polished finishes that look like new. Ultrasonic & Rotary Compatible: Specifically designed for ultrasonic and rotary case cleaners, ensuring compatibility and optimal results. Usage Instructions Shake the bottle gently before use. Dilute 3 ounces of solution with 128 ounces (1 gallon) of distilled water for best results. Tap water may be used but could leave water spots when drying. Submerge brass cases in rotary or ultrasonic cleaner, tumble for 20 to 30 min and let the cleaner work its magic. Rinse thoroughly with clean water and dry completely after cleaning. Repeat until you get your desired results. Precautions Avoid inhaling vapors or ingesting the product. If swallowed, rinse your mouth and consult a physician. May cause skin irritation, wash any residue from your skin and clothing immediately. Protect from freezing and store safely, out of reach of children. This solution is manufactured exclusively for L.E. Wilson Inc., proudly based in East Wenatchee, WA. For item numbers, UPC codes, and additional product details, refer to the packaging. Whether you're an avid reloader or a professional, the L.E. Wilson Brass Cleaning Juice offers a safe and effective way to maintain your brass cases and achieve remarkable results with every clean!

SUPER JUICE BRASS CLEANER Safety Instruction Guide

Introduction

Welcome to the safety instruction guide for L.E. Wilson Inc. SUPER JUICE BRASS CLEANER. This product is designed to keep your brass cases in pristine condition. It is important to use this product safely and effectively. Please read this guide carefully to understand the safety guidelines, usage instructions, and disposal recommendations.

General Safety Guidelines

- Ensure safe use of the product by following all instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Avoid using the product in poorly ventilated areas.
- Always wear appropriate personal protective equipment (PPE), including gloves and safety goggles, when handling the product.
- Do not mix this cleaner with any other chemicals or cleaning agents.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Avoid inhaling vapors from the cleaner. Use in a wellventilated area.
- If swallowed, rinse your mouth immediately and seek medical attention.
- In case of skin contact, wash the affected area with soap and water. If irritation persists, consult a physician.
- Do not allow the product to freeze. Store in a cool, dry place.
- Ensure that the product is stored securely and is not accessible to children.

Instructions for Installation and Usage

1. Preparation:

- Shake the bottle gently before use.
- Dilute 3 ounces of SUPER JUICE BRASS CLEANER with 128 ounces (1 gallon) of distilled water for optimal results. Tap water may be used, but it may leave spots when drying.

2. Cleaning Process:

- Submerge brass cases in either a rotary or ultrasonic cleaner.
- Tumble the cases for 20 to 30 minutes to allow the cleaner to work effectively.
- After cleaning, rinse the brass cases thoroughly with clean water.
- Dry the cases completely before using or storing them.

3. Repeat Process:

- If desired results are not achieved, repeat the cleaning process until the brass is clean and bright.

Disposal Instructions

- Dispose of any unused product and empty containers in accordance with local regulations.
- Do not dispose of the product in household waste or down the drain.
- Contact your local waste management authority for guidance on safe disposal methods.
