

SRO ADJUSTABLE LED REFLEX RED DOT SIGHT - TRIJICON SRO 5.0 MOA ADJUSTABLE LED REFLEX RED DOT SIGHT COY BROWN

[Optics & Mounting](#) > [Electronic Sights](#) > [Red Dot Sights](#)

A Slide-Mounted Optic Designed for Increased Accuracy

SRO ADJUSTABLE LED REFLEX RED DOT SIGHT The Trijicon Specialized Reflex Optic (SRO™) 1.0 MOA Adjustable LED red dot is best suited for use on a rifle or target pistol application or in applications where increased accuracy at distance is needed. The wide field of view and clean, crisp dot makes it easy for users to find and track the dot in both target and competitive shooting applications, helping improve shooting accuracy and speed. Every SRO features both manual and automatic LED brightness modes and a 3-year battery life. The SRO is designed to survive the rigors of slide ride pistols and is engineered for hard use. It shares a similar electronics design with the proven Trijicon RMR®. Like the RMR the SRO is forged from 7075, T-6 aircraft grade aluminum, making it much more durable than conventional red dot sights. This forged housing protects the lenses and electronics, and it has been tested to survive typical pistol mounted drops. **FEATURES:** LARGE, UNOBSTRUCTIVE FIELD OF VIEW Parallax-free and compatible with suppressor-height iron sights. CLEAR, CRISP DOT Fine-tuned, illuminated reticle, coupled with exceptionally clear front lens, offers a clear sight picture with a crisp dot. BUTTON “LOCK-OUT” MODE Secures the Auto-Brightness setting feature—ideal for everyday carry and hunting. RED DOT PISTOL READY Designed to fit on many of the most popular red-dot-ready brands on the market. EASY, ADJUSTABLE WINDAGE & ELEVATION Tool-less design makes zeroing hassle-free. TOP-LOADING BATTERY Makes battery-switching fast and easy. BUTTON “LOCK-IN” MODE Secures the user-chosen brightness setting indefinitely ideal for competition and target shooting. SAME FOOTPRINT AS RMR® Mounts easily using the same base as the Trijicon RMR®. COMPLETE USER-CONTROL ILLUMINATION SETTINGS 8 brightness settings, including 1 super bright mode and 2-night vision modes. WATERPROOF UP TO 10 FEET (3 METERS) Made with durable 7075-aluminum housing. **SPECIFICATIONS:** Length x Width x Height: 2.2 in x 1.3 in x 1.4 in (55.88mm x 33.02mm x 35.56mm) Weight: 1.6 oz. (45.36g) Magnification: 1x Reticle Pattern: 1.0 MOA Dot Day Reticle Color: Red Night Reticle Color: Red Bindon Aiming Concept™ (BAC): No Illumination Source: LED Illumination Settings: Automatic & 8 Adjustable Settings (2 NV, 6 Visible) Power Source: CR2032 Lithium Battery Battery Life: Over 3 years of continuous use (when used at 70°F (21°C)) at setting 4 of 8. *Extreme temperatures (high or low) will affect lithium battery performance. Adjustment: 1 MOA Per Click Adjustment Range: 150 MOA Total Travel Mount: Not Included Housing Material: Forged Aluminum Submersion Depth: 10 Ft. (3m) NOTE: If selecting an SRO for mounting on the Glock® MOS, Springfield® OSP, Walther® PDP, or H&K® VP9 Optics Ready, a Trijicon SRO® mounting kit (AC32085) is required.

Safety Instruction Guide for SRO Adjustable LED Reflex Red Dot Sight

Introduction

Thank you for choosing the SRO Adjustable LED Reflex Red Dot Sight by Trijicon. This guide provides essential safety information and instructions for the proper use, installation, and disposal of your product. Please read this guide carefully to ensure safe operation and maintenance.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in the product description.
- Always handle the sight with care to avoid damage to the unit or injury to yourself and others.
- Check the sight for any visible damage before use. If damaged, do not use the product.
- Keep the sight out of reach of children and vulnerable individuals to prevent accidental injury.
- Store the sight in a safe, dry place away from direct sunlight and extreme temperatures.
- Regularly check for updates on product recalls and safety notices through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the sight is securely mounted to the firearm before use.
- Always keep the firearm pointed in a safe direction when handling.
- Use appropriate eye and ear protection while using the sight and firearm.
- Do not modify the sight or use it in ways not recommended by the manufacturer.
- Be aware of your surroundings and ensure that your shooting area is safe and clear of unauthorized individuals.
- Do not use the sight in extreme weather conditions that may affect its performance.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded before installation.
- Mount the SRO sight on the firearm using the same base as the Trijicon RMR.
- Ensure that the sight is securely fastened and properly aligned.
- Check the zeroing of the sight using the toolless windage and elevation adjustments.

2. Usage:

- Turn on the sight using the designated button.
- Adjust brightness settings according to the lighting conditions using the usercontrol illumination settings.
- Use the button "lockout" mode for everyday carry and hunting to secure the autobrightness setting.
- For competition and target shooting, engage the button "lockin" mode to secure your chosen brightness setting.

3. Battery Maintenance:

- Replace the battery when the illumination dims. Use a CR2032 lithium battery for replacement.
- Follow the toploading battery instructions to switch batteries quickly and easily.

Disposal Instructions

- Dispose of the sight and its components in accordance with local regulations for electronic waste.
- Remove the battery before disposal and dispose of it according to local battery disposal guidelines.
- Do not dispose of the sight in regular household waste to ensure environmental safety.

Contact Information for Further Support

For any questions or concerns regarding the SRO Adjustable LED Reflex Red Dot Sight, please refer to the Trijicon website or authorized dealers for assistance.

By following these guidelines, you can ensure a safe and enjoyable experience with your SRO sight. Thank you for your attention to safety and responsible usage.
