Safety Instruction Guide for Peterson Cartridge 300 WSM Brass

Introduction

Thank you for choosing the Peterson Cartridge 300 WSM Brass. This product is designed for reloaders who value precision and performance. To ensure safe and effective use of this product, please follow the guidelines outlined in this safety instruction guide.

General Safety Guidelines

- Always handle ammunition components with care.
- Store cartridges in a cool, dry place, away from direct sunlight and moisture.
- Keep out of reach of children and unauthorized users.
- Inspect brass cases for signs of damage or wear before use.
- Follow all local laws and regulations regarding ammunition components.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use only in firearms specifically chambered for 300 WSM (Winchester Short Mag) cartridges.
- Ensure that your reloading equipment is in good working condition.
- Wear appropriate eye and ear protection while reloading and shooting.
- Do not exceed recommended load data when reloading.
- Be aware of the risks associated with reloading, including potential hazards from gunpowder and primers.
- Avoid distractions while reloading to minimize the risk of accidents.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary reloading equipment, including dies, press, and safety gear.
- Ensure your workspace is clean and organized to prevent accidents.

2. Inspect the Brass:

- Check each brass case for any defects such as cracks, dents, or corrosion.
- Discard any damaged cases immediately.

3. Resize and Deprime:

- Use the appropriate die to resize the brass and remove the spent primer.
- Follow the manufacturer's instructions for your reloading press.

4. Clean the Brass:

- Clean the brass cases to remove any debris or residue.
- Use a tumbler or ultrasonic cleaner for best results.

5. Prime the Cases:

- Insert new primers into the cases using a priming tool.
- Ensure primers are seated correctly and are not protruding.

6. Charge the Cases:

- Measure the appropriate amount of powder using a reliable scale.
- Carefully pour the powder into each case, ensuring no spills occur.

7. Seat the Bullets:

- Place bullets on top of the charged cases and use a bullet seating die to seat them to the correct depth.
- Verify that the overall length of the cartridge meets specifications.

8. Final Inspection:

- Inspect each completed cartridge for consistency and quality.
- Store completed cartridges in a proper container, labeled with load data.

Disposal Instructions

- Dispose of any damaged or unusable brass cases in accordance with local regulations.
- Do not discard in regular household waste; check for recycling options.
- Follow local laws for the disposal of hazardous materials, including gunpowder and primers.

Contact Information for Further Support

For further assistance or inquiries regarding safety and performance, please refer to the manufacturer's website or contact the designated EU-based support service.

By adhering to these safety guidelines and instructions, you can ensure a safe and enjoyable reloading experience with the Peterson Cartridge 300 WSM Brass. Thank you for your commitment to safety and quality.
