

# SINCLAIR INSERT STYLE BULLET COMPARATOR - COMPARATOR & BUMP GAUGE BODY KIT, STANDARD

[Reloading](#) > [Measuring Tools](#) > [Bullet Comparators](#)

This Sinclair Comparator is an excellent tool to use to sort bullets by base to give length. This is a valuable step if you are considering trimming the bullet meplat. NOTE: When sorting a lot of bullets, a digital caliper is sometimes a better choice for some handloaders than a dial caliper. An alternative tool to use for sorting bullets is our Sinclair Bullet Sorting Stand (#59-2000) which uses its own unique comparators. Our Sinclair Bullet Comparator attaches to the blade of your caliper and uses inserts for each specific caliber. The inserts are stainless steel and machined with a taper and a short straight section to more accurately duplicate the chamber throat. This eliminates the wobble experienced with many comparators which have standard drilled holes. Our design allows you to quickly and accurately measure the bullet's bearing surface of the bullet. Comparator inserts are available in 17 thru 45 caliber, and they can be used in both the Sinclair and older Stoney Point comparator bodies. These inserts are not intended to measure rounds seated to magazine length or shorter. For this application please see our Sinclair Bullet Comparators (#09-600 and #09-700).

## Attributes

- Name: [COMPARATOR & BUMP GAUGE BODY KIT, STANDARD](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749002552
- Mfr. No.: 091000
- Caliber: Universal
- Cartridge: -
- Delivery weight: 0.009kg
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 050806111530

# Sinclair Insert Style Bullet Comparator Safety Instruction Guide

## Introduction

Thank you for choosing the Sinclair Insert Style Bullet Comparator and Bump Gauge Body Kit, Standard. This guide provides important safety instructions and guidelines to ensure the safe and effective use of this product. Please read this manual carefully before use.

## General Safety Guidelines

- Ensure you are familiar with the product and its intended use before operation.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses, when using the comparator.
- Keep the comparator and its components out of reach of children and vulnerable individuals.
- Regularly inspect the comparator and its inserts for any signs of wear or damage before each use.
- Do not use the comparator for any purpose other than its intended use as described in this manual.
- If you experience any issues or malfunctions while using the comparator, stop use immediately and consult the manufacturer.

## Specific Safety Precautions for Use

### • Handling Inserts:

- Handle inserts with care to avoid injury. The stainless steel inserts are sharp and can cause cuts.
- Ensure that inserts are securely attached to the comparator before use to prevent accidents.

### • Measuring Bullets:

- Only measure bullets that are compatible with the comparator inserts. Using incorrect inserts may lead to inaccurate measurements and potential safety hazards.
- Avoid applying excessive force when measuring bullets to prevent damage to the comparator or injury to yourself.

### • Sorting Bullets:

- When sorting bullets, ensure the workspace is clean and free of obstructions to prevent accidents.
- Use a digital caliper for sorting large quantities of bullets, as it may provide more accurate measurements than a dial caliper.

## Instructions for Installation and Usage

### 1. Setting Up the Comparator:

- Attach the Sinclair Bullet Comparator to the blade of your caliper securely.
- Select the appropriate insert for the caliber of the bullet you wish to measure.
- Insert the comparator into the caliper with the selected insert.

### 2. Measuring Bullets:

- Place the bullet on a flat, stable surface.
- Align the comparator insert with the base of the bullet.
- Gently close the caliper until the insert contacts the bullet, ensuring a snug fit.

- Read the measurement displayed on the caliper.

### **3. Sorting Bullets:**

- Use the comparator to sort bullets by their bearing surface length.
- Record measurements as needed for your reloading process.

### **4. Cleaning and Maintenance:**

- After use, clean the comparator and inserts with a soft cloth to remove any debris.
- Store the comparator and inserts in a dry place to prevent rust and damage.

## **Disposal Instructions**

- Dispose of any damaged or unusable components in accordance with local regulations.
- Do not dispose of the product in household waste. Instead, follow local guidelines for recycling or hazardous waste disposal.

## **Contact Information for Further Support**

For further support or inquiries regarding safety and product use, please consult the manufacturer or your retailer. Always refer to the product packaging or the manufacturer's website for the most accurate and up-to-date information.

Thank you for your attention to these safety guidelines. Your safety is our priority, and we hope you enjoy using the Sinclair Insert Style Bullet Comparator and Bump Gauge Body Kit.
