

# PREMIUM HANDGUN DIE SETS - REDDING 32 S&W, 32 H&R MAG

## PREMIUM HANDGUN DIE SET

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

The Redding Premium Handgun 3-Die Set mate a Titanium Carbide-sizing die, a newly designed expander die containing the unique Redding expander plug now coated in TiN, Titanium Nitride for added surface hardness, lubricity and durability. The TiN coating will also reduce brass build up on the expander as well, an important improvement for high volume reloaders. The Redding Expander contains a unique series of processes it provides as it travels into the case itself. First a radius on its base eases entry into the case mouth. Next a parallel expander section expands and true's the case internally to create a perfect bearing surface for the bullet as it is seated. This also adds a more uniform bullet pull and start pressure as well. Next is a small step, to properly align the bullet with the centerline of the cartridge case. This positions the bullet for proper contact with the seating micrometer, adding uniformity during actual seating process. Lastly, a flare is the final step on the Redding expander plug to further open the case mouth when using cast bullets so that they do not shave lead during the seating process. The final die in the set is a Seating Die, which has the added accessory Bullet Seating Micrometer for unmatched seating depth control and precision. This die also contains either a taper or roll crimp for the appropriate cartridge. All three dies in the set also feature an enhanced lead-in for ease of use with progressive reloading presses.

### Attributes

- Name: [REDDING 32 S&W, 32 H&R MAG PREMIUM HANDGUN DIE SET](#)
- Manufacturer: [REDDING](#)
- Product no.: 749018618
- Mfr. No.: 66162
- Cartridge: 32 H&R Magnum,32 S&W
- Delivery weight: 0.757kg
- Shipping height: 51mm
- Shipping width: 127mm
- Shipping length: 152mm
- UPC: 611760661624

# Safety Instruction Guide for Redding Premium Handgun Die Sets

## Introduction

Thank you for choosing the Redding Premium Handgun Die Set for your reloading needs. This guide provides essential safety instructions and guidelines to ensure the safe use of your product. It complies with the EU General Product Safety Regulation (GPSR) to protect consumers and promote safe practices.

## General Safety Guidelines

- Ensure that all components of the die set are in good condition before use.
- Always wear appropriate safety gear, including safety glasses and protective gloves, during reloading processes.
- Keep the die set and all reloading components out of reach of children and unauthorized users.
- Follow all local laws and regulations regarding the use and storage of reloading equipment and ammunition.
- Regularly check for any product recalls or safety updates through the EU Safety Gate platform.

## Specific Safety Precautions for Use

### • Hazard Identification:

- Improper handling of reloading equipment may lead to accidental discharge or injury.
- Exposure to lead and other hazardous materials may occur during the reloading process.

### • Avoiding Hazards:

- Always handle ammunition and reloading components as if they are live and potentially dangerous.
- Do not use damaged or wornout dies; replace them immediately.
- Ensure that your workspace is clean and free of obstructions to prevent accidents.
- Store all components in a dry, cool place to prevent degradation or damage.

### • Audience Specific Warnings:

- This product is not intended for use by individuals under the age of 18.
- Ensure that inexperienced users are supervised by a knowledgeable adult when using the die set.

## Instructions for Installation and Usage

### • Installation:

- Read the product manual thoroughly before installation.
- Ensure that your reloading press is compatible with the Redding die set.
- Securely mount the die set onto the reloading press according to the manufacturer's instructions.

### • Usage:

- Begin with the sizing die to resize the brass cases. Follow the specific instructions provided with the die set for optimal results.
- Use the expander die to prepare the case mouth for bullet seating. Ensure that the expander is properly aligned with the case.

- Adjust the seating die and bullet seating micrometer for precise bullet depth. Test with a few cases before proceeding with larger quantities.
- Always check the press and dies for proper alignment and secure fit during operation.
- Dispose of any defective or improperly loaded ammunition safely and according to local regulations.

## **Disposal Instructions**

- Dispose of any unused or defective components in accordance with local regulations governing hazardous waste.
- Recycle brass cases and other materials where applicable. Contact local recycling centers for guidelines on recycling ammunition components.
- Ensure that all materials are stored securely until disposal to prevent unauthorized access.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the Redding Premium Handgun Die Set, please refer to the contact information provided in the product packaging or visit the manufacturer's website. It is essential to have access to support for any questions related to safety and usage.

Thank you for your attention to these safety guidelines. By following these instructions, you can ensure a safe and effective reloading experience with your Redding Premium Handgun Die Set.
