

# AR-15 BOLT CARRIER ASSEMBLY 5.56 NATO - WILSON COMBAT M16 BOLT CARRIER ASSY 5.56 NATO POLISHED NICKEL BORON

[Rifle Parts](#) > [Bolt Parts](#) > [Bolt Carrier Groups](#)

Manufactured by Wilson Combat's finest domestic Mil-Spec contractors, these are among the best 5.56 AR rifle bolts on the market and the same bolts they use as the basis of our renowned custom rifles! Wilson Combat's bolt is precision machined from Carpenter No. 158 steel, shot peened for increased strength and includes a tool steel extractor and ejector, appropriate extractor spring, and is MPI (Magnetic Particle Inspected and randomly batch HPT (High Pressure Tested) . The extractor is 4140 gun quality, annealed, cold drawn steel per the Mil-Spec Parkerized externally and internally chrome lined the 8620 steel carrier includes a proper machined Mil-Spec gas key that is chrome lined, phosphated and heat treated per GI specifications. It is secured to the carrier via Grade 8 fasteners and properly staked in our shop during final inspection. These precisely machined, finished and hardened parts will ensure long term proper gas system functioning and reliability. All experienced AR shooters know that the best spare parts kit for an AR-15 rifle is a spare complete bolt carrier assembly! Parkerized finish and internally chrome lined Mil spec parts ensure a long service life Machined ejector and extractor per mil specs Full Auto carrier (see note) Drop in fit for any quality 5.56 case head based AR rifle (.223/5.56 NATO, .300 Blackout, .204 Ruger, or 7.62X40 WT) NOTE- The only difference between "semi-auto" and "full-auto" carriers are the carrier weight and external profile. The "full-auto" carrier is slightly heavier to provide more mass and lower cyclic rate that can benefit carbine length and shorter gas systems, short barreled/suppressed rifles and machineguns. The "semi-auto" carrier is slightly lighter to provide the least amount of recoil impulse for rifle length gas systems and its design makes reinstalling the firing pin easier after cleaning. Both carrier types are considered completely interchangeable and there are no restrictions on the ownership of a "full auto" carrier group in a semi-automatic rifle.

## Attributes

- Name: [WILSON COMBAT M16 BOLT CARRIER ASSY 5.56 NATO POLISHED NICKEL BORON](#)
- Manufacturer: [WILSON COMBAT](#)
- Product no.: 965900008
- Mfr. No.: TR-BCA-PNIB
- Cartridge: 5.56 mm NATO
- Finish: Nickel-Boron
- Weapon type: AR-15
- Delivery weight: 0.368kg
- Shipping height: 51mm
- Shipping width: 102mm
- Shipping length: 279mm
- UPC: 810025500733

## Item details

Made in USA

US export classification: I(g)

# Safety Instruction Guide for AR15 Bolt Carrier Assembly 5.56 NATO

## Introduction

Thank you for choosing the AR15 Bolt Carrier Assembly 5.56 NATO by Wilson Combat. This product has been designed and manufactured to meet high standards of quality and safety. To ensure your safety and the proper functioning of your firearm, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Ensure that you are familiar with the operation of your firearm and the specific components of the AR15 platform.
- Always treat every firearm as if it is loaded.
- Keep firearms pointed in a safe direction at all times.
- Store firearms and ammunition securely, out of reach of children and unauthorized users.
- Regularly inspect your firearm and its components for wear or damage.
- Use only highquality, compatible ammunition as specified for your firearm.
- Always wear appropriate eye and ear protection when shooting.

## Specific Safety Precautions for Use

- **Installation Precautions:**
  - Ensure that the firearm is unloaded before installing or replacing the bolt carrier assembly.
  - Follow the manufacturer's instructions for installation to avoid improper assembly.
- **Operational Safety:**
  - Always check that the bolt carrier assembly is properly seated and functioning before firing.
  - Do not attempt to modify the bolt carrier assembly or any other firearm components.
- **Maintenance:**
  - Regularly clean and maintain the bolt carrier assembly as per the manufacturer's guidelines.
  - Inspect the extractor and ejector for wear and replace them if necessary.
- **Age Restrictions:**
  - This product is intended for use by individuals of legal age to possess firearms. Ensure compliance with local laws.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the firearm is completely unloaded.
- Remove the existing bolt carrier assembly by following the disassembly instructions in your firearm's manual.
- Insert the new bolt carrier assembly into the upper receiver, ensuring it is properly aligned.
- Secure the assembly using the appropriate fasteners as specified in the installation manual.
- Perform a function check to ensure proper operation before using the firearm.

### 2. Usage:

- Load the firearm with compatible ammunition only.
- When ready to fire, ensure the safety is disengaged and aim at your target.
- Fire the weapon while maintaining proper shooting stance and control.
- After firing, observe the ejection of the spent casing to ensure proper function.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations regarding firearms and firearm components.
- If the bolt carrier assembly is damaged or no longer usable, contact local authorities or a licensed firearms dealer for guidance on proper disposal.

## **Contact Information for Further Support**

For any inquiries or support regarding the AR15 Bolt Carrier Assembly, please refer to the manufacturer's official website or contact their customer service department.

## **Conclusion**

By following these safety instructions, you will help ensure a safe and enjoyable experience with your AR15 Bolt Carrier Assembly 5.56 NATO. Always prioritize safety and compliance with local laws when handling firearms. Thank you for your attention to these important guidelines.
