

# XRS Forend Weight

[Rifle Parts](#) > [Stock Parts](#) > [Stock Hardware](#) > [Weights](#)

Add weight to the front section (forend) of your MDT XRS Chassis System to achieve optimal balance and help reduce felt recoil.

## **Sepecs:**

- Single-piece steel weight that fills the XRS forend
- Installs easily, sliding under the barrel
- Nitrided finish for corrosion resistance
- Approximate dimensions: 10" x 1.125" x 0.5"
- Clearance for barrel contours up to 1.25"
- Adds 1lb of weight to the front section of the chassis to tune the balance point of the rifle, and reduce felt recoil
- Includes underside clearance slot for M-LOK nut clearance
- Includes all hardware (6x #10-24 x 5/8" Flat-Head Cap Screws) for mounting to XRS forend

NO IMAGE  
AVAILABLE

## **Compatibility:**

The XRS Forend Weight is compatible with the MDT XRS Chassis System only.

**As of 2021 we have updated the XRS Chassis forend to accept this forend weight, if you purchased your MDT XRS Chassis prior to 2021 you may need to purchase our retro-fit kit in order to accept this forend weight.**

# MDT XRS Forend Weight Safety Instruction Guide

## Introduction

Thank you for choosing the MDT XRS Forend Weight. This product is designed to enhance the balance of your MDT XRS Chassis System, improving your shooting experience by reducing felt recoil. Please read this safety instruction guide carefully to ensure safe and proper use of the product.

## General Safety Guidelines

- Always ensure that the MDT XRS Forend Weight is installed correctly and securely before use.
- Regularly inspect the forend weight and its mounting hardware for signs of wear or damage.
- Keep the product out of reach of children and vulnerable individuals to prevent accidental injury.
- If you experience any issues or have concerns about the product, refrain from using it and seek assistance.

## Specific Safety Precautions for Use

- Ensure that the rifle is unloaded before installing or adjusting the forend weight.
- Use only the provided mounting hardware to secure the forend weight. Substituting with other hardware may compromise safety.
- Be cautious when handling the forend weight, as it is made of steel and may have sharp edges.
- Avoid using the product in extreme weather conditions that may affect its performance or integrity.
- If you notice any unusual sounds or movements during use, cease operation immediately and inspect the product.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure that your MDT XRS Chassis System is clean and free from debris.
- Gather the necessary tools for installation, including a screwdriver.

### 2. Installation Steps

- Slide the MDT XRS Forend Weight under the barrel of the chassis, ensuring it fits snugly.
- Align the underside clearance slot with the MLOK nut for proper fitment.
- Use the provided 6x #1024 x 5/8" FlatHead Cap Screws to secure the forend weight to the chassis.
- Tighten the screws evenly to ensure a secure fit without overtightening.

### 3. Usage Guidelines

- Once installed, test the balance of your rifle by holding it in a shooting position.
- Adjust the placement of the forend weight if necessary to achieve your desired balance point.
- Always handle your rifle with care and follow standard firearm safety practices.

## Disposal Instructions

- Dispose of the MDT XRS Forend Weight and any associated packaging materials in accordance with local regulations.
- If the product is damaged or no longer in use, consider recycling the steel components where facilities are available.

## **Contact Information for Further Support**

For any questions or concerns regarding the MDT XRS Forend Weight, please consult the manufacturer's website or customer service for assistance. Ensure that you have your product details and purchase information available for reference.

By following these guidelines, you can ensure a safe and effective experience with your MDT XRS Forend Weight. Thank you for your attention to safety and enjoy your enhanced shooting experience!
