

# Full Length Die 7/8 - Full Length Die 9,3x74 R

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The FL dies is used to size the cartridge case on full length. In addition to a removable expander our FL dies have an integrated primer ejector pin. All used spindles, the expander and ejector pin can be replaced easily if necessary, with just little effort.

Calibration takes place when the cartridge case is pushed into the die. The neck of the case is calibrated from the inside when it is moved out of the die. This will form the cartridge case and achieves a correct neck tension.

The correct position of the die in the press is set with the lock nut. All relevant components have an article number for easy reordering if necessary. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# Full Length Die 7/8 & 9,3x74 R Safety Instructions

## Introduction

Thank you for choosing the Full Length Die 7/8 & 9,3x74 R. This guide provides essential safety instructions and usage guidelines to ensure safe handling and operation of the product. Please read this manual thoroughly before use.

## General Safety Guidelines

- Ensure that the Full Length Die is used only as intended, for sizing cartridge cases.
- Always wear appropriate eye protection when using reloading equipment to prevent injury from potential debris.
- Keep the workspace clean and organized to avoid accidents.
- Ensure that the die is securely fitted in the press before use to prevent any movement during operation.
- Do not exceed the recommended load specifications for your cartridges.
- Store the die in a dry and safe location, away from children and unauthorized users.
- Regularly inspect the die for wear and damage. Replace any worn or damaged parts immediately.

## Specific Safety Precautions for Use

- Always follow the manufacturer's instructions for setup and use.
- Do not attempt to modify the die or its components without consulting the manual.
- Handle the expander and primer ejector pin with care to avoid injury.
- Ensure that the cartridge case is clean and free from obstructions before inserting it into the die.
- Be cautious when adjusting the lock nut to avoid accidental movement of the die during operation.
- If you experience any unusual resistance while sizing, stop immediately and inspect the die and cartridge case for issues.

## Instructions for Installation and Usage

### 1. Installation:

- Securely attach the Full Length Die to your reloading press using the 7/8 thread.
- Adjust the die to the desired height using the lock nut to ensure proper positioning.

### 2. Usage:

- Insert a clean cartridge case into the die.
- Pull the handle of the reloading press smoothly to push the cartridge case into the die.
- The neck of the case will be calibrated as it exits the die, ensuring proper neck tension.
- Remove the cartridge case from the die after sizing.
- If necessary, replace the expander or primer ejector pin by following the instructions in the manual.

## Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the die or its components in regular household waste. Contact local waste management for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding safety or product support, please refer to the contact details provided in the product packaging or manual.

## **Conclusion**

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your Full Length Die 7/8 & 9,3x74 R. Always prioritize safety and consult the manual for any questions or concerns. Thank you for choosing our product.
