

TIMBR Core Laminate - MDT Chassis - TIMBR Core Laminate - Savage 110 - SA - RH - GMC

[Rifle Parts](#) > [Stock Parts](#) > [Rifle Stocks](#)

The MDT TIMBR CORE is what happens when you stop choosing between beauty and performance.

Crafted from solid walnut and built around MDT's proven aluminum micro-chassis, it combines timeless craftsmanship with modern precision engineering. On the outside, you get the warmth, character, and unmistakable presence of real wood. On the inside, you get a rigid, performance-driven backbone designed to deliver consistency shot after shot.

Every TIMBR CORE is made from genuine natural walnut, meaning no two stocks are ever the same. The grain, the tone, the finish — each one is 100% unique. This isn't just another rifle stock. It's your rifle stock.

At its core lies an integrated aluminum micro-chassis featuring a V-block bedding system. Your action locks into place with precision and zero guesswork. No traditional bedding. No gunsmithing required. Just torque it down and you're ready to shoot. The result is a precise action fit, minimal flex, and repeatable accuracy you can rely on in the field or at the range.

From whitetail woods to weekend range sessions, the TIMBR CORE delivers the warmth of wood with the repeatability of metal. Ergonomic refinements inspired by MDT's chassis systems — including optimized grip angles, adjustable LOP spacers, and improved geometry — enhance comfort and control without sacrificing the classic look and feel of a traditional wood stock.

MDT TIMBR Core Laminate MDT Chassis Safety Instruction Guide

Introduction

Thank you for choosing the MDT TIMBR Core Laminate MDT Chassis for your Savage 110 rifle. This product combines beauty and performance, crafted from solid walnut and engineered for precision. To ensure your safety and the effective use of this product, please read the following safety instructions carefully.

General Safety Guidelines

- Always handle your rifle with care and respect.
- Ensure the rifle is unloaded when not in use or while performing maintenance.
- Store your rifle in a secure location, out of reach of children and unauthorized users.
- Regularly inspect your rifle and chassis for any signs of damage or wear.
- Follow all local laws and regulations regarding firearm ownership and usage.
- Use only ammunition that is compatible with your rifle model.
- Be aware of your surroundings and ensure a safe shooting environment.

Specific Safety Precautions for Use

- Ensure that the action of the rifle is locked into place correctly before use.
- Always use the integrated aluminum microchassis bedding system as instructed to maintain accuracy and safety.
- Do not modify or alter the chassis or stock, as this can compromise safety and performance.
- When adjusting the length of pull (LOP) spacers, ensure that adjustments are secure and do not interfere with the rifle's operation.
- Be cautious of the wood finish; avoid exposure to harsh chemicals or extreme temperatures that may damage the walnut.
- If you notice any unusual behavior or performance issues, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Installation of the MDT Chassis:

- Carefully remove the existing stock from your Savage 110 rifle.
- Align the action of your rifle with the integrated aluminum microchassis.
- Secure the action using the provided hardware, ensuring that the Vblock bedding system is properly engaged.
- Torque the screws to the manufacturer-recommended specifications to ensure a secure fit.

2. Adjusting the Length of Pull (LOP):

- Remove the LOP spacers from the chassis.
- Select the appropriate number of spacers based on your desired length of pull.
- Reattach the spacers securely, ensuring they are fastened tightly.

3. Preparing for Use:

- Check that the rifle is unloaded.
- Ensure that the safety mechanism is engaged until you are ready to fire.
- Familiarize yourself with the rifle's controls and features before heading to the range.

4. Shooting:

- Always maintain a proper shooting stance and grip.
- Be aware of your target and what lies beyond it.
- Follow all range rules and regulations while shooting.

Disposal Instructions

- When disposing of the MDT TIMBR Core Laminate MDT Chassis, ensure that you comply with local regulations regarding the disposal of firearms and firearm components.
- If the chassis is damaged beyond repair, consider recycling components where applicable, such as metal parts.
- Do not dispose of your chassis in regular household waste.

Contact Information for Further Support

For any inquiries or concerns regarding the MDT TIMBR Core Laminate MDT Chassis, please reach out to your local dealer or authorized MDT representative. They can provide assistance and support for any issues you may encounter.

By following these guidelines, you can ensure a safe and enjoyable experience with your MDT TIMBR Core Laminate MDT Chassis. Thank you for your attention to safety.
