

TIMBR Core Laminate - MDT Chassis - TIMBR Core Laminate - Ruger American - SA - RH - CCL

[Rifle Parts](#) > [Stock Parts](#) > [Rifle Stocks](#)

The MDT TIMBR CORE is what happens when you stop choosing between beauty and performance.

Crafted from solid walnut and built around MDT's proven aluminum micro-chassis, it combines timeless craftsmanship with modern precision engineering. On the outside, you get the warmth, character, and unmistakable presence of real wood. On the inside, you get a rigid, performance-driven backbone designed to deliver consistency shot after shot.

Every TIMBR CORE is made from genuine natural walnut, meaning no two stocks are ever the same. The grain, the tone, the finish — each one is 100% unique. This isn't just another rifle stock. It's your rifle stock.

At its core lies an integrated aluminum micro-chassis featuring a V-block bedding system. Your action locks into place with precision and zero guesswork. No traditional bedding. No gunsmithing required. Just torque it down and you're ready to shoot. The result is a precise action fit, minimal flex, and repeatable accuracy you can rely on in the field or at the range.

From whitetail woods to weekend range sessions, the TIMBR CORE delivers the warmth of wood with the repeatability of metal. Ergonomic refinements inspired by MDT's chassis systems — including optimized grip angles, adjustable LOP spacers, and improved geometry — enhance comfort and control without sacrificing the classic look and feel of a traditional wood stock.

MDT TIMBR Core Laminate MDT Chassis Safety Instructions

Introduction

Thank you for choosing the MDT TIMBR Core Laminate MDT Chassis for your Ruger American rifle. This product combines the beauty of natural wood with the precision of modern engineering. To ensure your safety and the optimal performance of your product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that you are familiar with the safe handling and operation of firearms before using this product.
- Always treat your firearm as if it is loaded, even if you believe it is not.
- Keep the firearm pointed in a safe direction at all times.
- Store your firearm and this product in a secure location, away from unauthorized access, especially children.
- Regularly inspect your MDT TIMBR Core for any signs of wear or damage.
- If you notice any defects or issues, do not use the product and contact a qualified gunsmith for evaluation.
- Always wear appropriate safety gear, including eye and ear protection, when shooting.

Specific Safety Precautions for Use

- When installing the MDT TIMBR Core, ensure that all screws and components are securely tightened to prevent any movement during use.
- Avoid overtightening screws, as this may damage the chassis or affect the fit of the action.
- Do not modify or alter the MDT TIMBR Core in any way, as this may compromise its integrity and safety.
- Ensure that the rifle is unloaded before installing or removing the chassis.
- Be cautious when handling the rifle while it is mounted on the MDT TIMBR Core, as the weight distribution may change.
- If using the adjustable LOP spacers, ensure they are securely fastened before use.
- Always follow the manufacturer's instructions for your specific rifle model when installing the MDT TIMBR Core.

Instructions for Installation and Usage

1. Preparation:

- Ensure your workspace is clean and free from distractions.
- Gather all necessary tools, including a torque wrench and appropriate screwdrivers.

2. Installation Steps:

- Unload your Ruger American rifle and ensure it is safe to handle.
- Remove the existing stock from the rifle according to the manufacturer's instructions.
- Align the action of your rifle with the integrated aluminum microchassis of the MDT TIMBR Core.
- Securely fasten the action into place using the provided screws and a torque wrench, following the recommended torque specifications.
- Attach the MDT TIMBR Core to the rifle, ensuring that all components are aligned correctly.
- Check that all screws are tightened but not overtightened.
- Inspect the fit and finish of the MDT TIMBR Core to ensure it is properly installed.

3. Usage:

- Before each use, perform a safety check to ensure the rifle is unloaded.
- Familiarize yourself with the ergonomics of the MDT TIMBR Core and adjust the LOP spacers as needed for comfort.
- When shooting, maintain a firm grip and a stable shooting position to maximize accuracy and safety.

Disposal Instructions

- Dispose of the MDT TIMBR Core responsibly.
- Do not dispose of the product in regular household waste.
- Check local regulations for proper disposal methods for wooden and metal products.
- Consider recycling options where available.

Contact Information for Further Support

For any questions or concerns regarding the MDT TIMBR Core Laminate MDT Chassis, please refer to the manufacturer's website or contact their customer service team. It is important to have access to reliable support for any safety-related inquiries.

By following these safety instructions, you can ensure a safe and enjoyable experience with your MDT TIMBR Core Laminate MDT Chassis. Always prioritize safety and responsible firearm handling. Thank you for your commitment to safe shooting practices.
