

TIMBR Core Laminate - MDT Chassis - TIMBR Core Laminate - Rem 700 - SA - RH - GMC

[Rifle Parts](#) > [Stock Parts](#) > [Rifle Stocks](#)

The MDT TIMBR CORE is what happens when you stop choosing between beauty and performance.

Crafted from solid walnut and built around MDT's proven aluminum micro-chassis, it combines timeless craftsmanship with modern precision engineering. On the outside, you get the warmth, character, and unmistakable presence of real wood. On the inside, you get a rigid, performance-driven backbone designed to deliver consistency shot after shot.

Every TIMBR CORE is made from genuine natural walnut, meaning no two stocks are ever the same. The grain, the tone, the finish — each one is 100% unique. This isn't just another rifle stock. It's your rifle stock.

At its core lies an integrated aluminum micro-chassis featuring a V-block bedding system. Your action locks into place with precision and zero guesswork. No traditional bedding. No gunsmithing required. Just torque it down and you're ready to shoot. The result is a precise action fit, minimal flex, and repeatable accuracy you can rely on in the field or at the range.

From whitetail woods to weekend range sessions, the TIMBR CORE delivers the warmth of wood with the repeatability of metal. Ergonomic refinements inspired by MDT's chassis systems — including optimized grip angles, adjustable LOP spacers, and improved geometry — enhance comfort and control without sacrificing the classic look and feel of a traditional wood stock.

MDT TIMBR Core Laminate MDT Chassis Safety Instruction Guide

Introduction

Thank you for choosing the MDT TIMBR Core Laminate MDT Chassis for your Remington 700 rifle. This guide provides essential safety instructions to ensure your product is used safely and effectively. It complies with the EU General Product Safety Regulation (GPSR) to protect consumers and promote safe usage.

General Safety Guidelines

- Always handle your rifle with care and assume it is loaded until you have verified otherwise.
- Ensure that you are familiar with local laws and regulations regarding firearm usage and storage.
- Keep the MDT TIMBR Core Laminate MDT Chassis out of reach of children and unauthorized users.
- Regularly inspect your rifle and chassis for any signs of wear or damage.
- Always wear appropriate safety gear, including eye and ear protection, when using your rifle.
- Be aware of your surroundings and ensure a safe shooting environment.

Specific Safety Precautions for Use

- Do not modify the MDT TIMBR Core Laminate MDT Chassis or any part of your rifle without consulting a qualified gunsmith.
- Ensure that the action of your rifle is properly secured within the chassis before use. A loose action can lead to malfunctions or accidents.
- Avoid using the rifle in wet or excessively humid conditions, as moisture can damage the wood and chassis components.
- Store the MDT TIMBR Core Laminate MDT Chassis in a cool, dry place to prevent warping or degradation of materials.
- Be cautious of the rifle's weight and balance, especially when using it in different shooting positions.

Instructions for Installation and Usage

1. Installation of the MDT TIMBR Core Laminate MDT Chassis:

- Ensure you have all necessary tools and components before beginning installation.
- Carefully remove the action from your Remington 700 rifle following the manufacturer's instructions.
- Align the action with the integrated aluminum microchassis, ensuring the Vblock bedding system is correctly positioned.
- Secure the action into the chassis using the provided screws. Torque them down according to the manufacturer's specifications.
- Confirm that the action is locked in place without any movement.

2. Usage Instructions:

- Before each use, perform a safety check to ensure the rifle is unloaded and free of obstructions.
- Adjust the length of pull (LOP) spacers as needed for comfort and control.
- Practice proper shooting stance and grip to maximize accuracy and minimize recoil.
- After shooting, clean the rifle and chassis to maintain performance and longevity.

Disposal Instructions

- When disposing of the MDT TIMBR Core Laminate MDT Chassis, follow local regulations regarding the disposal of firearm components.
- If the chassis is damaged beyond repair, consider contacting a local recycling center that handles metal and wood materials.
- Ensure that any remaining components of the rifle are securely stored or disposed of to prevent unauthorized use.

Contact Information for Further Support

For any questions or concerns regarding the MDT TIMBR Core Laminate MDT Chassis, please reach out to the appropriate support channels as indicated in the product packaging or documentation.

By following these safety instructions, you can ensure a safe and enjoyable experience with your MDT TIMBR Core Laminate MDT Chassis. Always prioritize safety and responsible firearm handling.
