

# TIMBR Core Laminate Kit - MDT Chassis - TIMBR Core Hunting Kit - Laminate - Rem 700 - SA - RH - CCL

[Rifle Parts](#) > [Stock Parts](#) > [Rifle Stocks](#)

The MDT TIMBR CORE is what happens when you stop choosing between beauty and performance.

Crafted from solid walnut and reinforced with our proven aluminum micro-chassis, it blends old-world elegance with a precision-engineered core. The result is a rifle stock that looks traditional but performs with modern consistency and strength.

The integrated V-block bedding system locks your action firmly into place with zero guesswork. No bedding compound. No gunsmithing. Just torque it down and you're ready to shoot. The aluminum micro-chassis eliminates flex, ensures a precise action fit, and delivers repeatable groups every time you pull the trigger.

Each TIMBR CORE is crafted from genuine natural wood, making every stock completely unique. The grain patterns, color tones, and finish variations are one of a kind. This isn't just another off-the-shelf stock — it's your rifle stock, with character built into every detail.

Designed for both field and range use, the TIMBR CORE brings the warmth and balance of walnut to whitetail woods while maintaining the repeatability and structural integrity of metal. Ergonomic refinements inspired by our chassis systems — including optimized grip angles, adjustable LOP spacers, and improved geometry — enhance comfort and control without sacrificing the classic look and feel of a traditional wood stock.

An oversized forend channel accommodates heavier barrel profiles with ease, while integrated sling studs allow you to mount a bipod or carry strap effortlessly. Whether you're hiking deep into the backcountry or setting up prone at the range, the TIMBR CORE is built to perform without compromise.

# MDT TIMBR Core Laminate Kit Safety Instructions

## Introduction

Thank you for purchasing the MDT TIMBR Core Laminate Kit. This guide provides essential safety instructions to ensure the safe use and handling of your rifle stock. Please read this document carefully before installation and use.

## General Safety Guidelines

- Ensure that the MDT TIMBR Core Laminate Kit is used only for its intended purpose as a rifle stock.
- Always follow local laws and regulations regarding firearm ownership and usage.
- Keep firearms stored securely and out of reach of children and unauthorized individuals.
- Regularly inspect the rifle stock for any signs of wear or damage before use.
- Use appropriate safety gear, including eye and ear protection, when handling firearms.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Ensure the action of the firearm is clear and unloaded before attaching or detaching the stock.
- Do not exceed the recommended torque specifications when securing the stock to the action.
- Avoid using the rifle stock in extreme environmental conditions that may affect its performance (e.g., excessive moisture, extreme heat).
- Be aware of the rifle's weight and balance when using it in the field or during shooting activities to prevent fatigue or loss of control.
- Use the integrated sling studs only for their intended purpose; do not overload them.
- Always maintain a safe muzzle direction when handling the rifle.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure you have the necessary tools, including a torque wrench.
- Remove the existing stock from your Remington 700 rifle.
- Align the MDT TIMBR Core stock with the action of the rifle.
- Secure the stock using the provided screws, ensuring they are tightened to the recommended torque specifications.
- Check that the action is firmly seated in the Vblock bedding system.

### 2. Usage:

- Before shooting, perform a function check to ensure the rifle operates correctly.
- When in the field, carry the rifle using the sling for added support and control.
- Regularly clean and maintain the stock to preserve its appearance and functionality.
- Store the rifle in a safe, dry place when not in use.

## Disposal Instructions

- When disposing of the MDT TIMBR Core Laminate Kit, follow local regulations regarding the disposal of firearm components.
- If the stock is damaged beyond repair, consider recycling materials where possible.
- Do not dispose of the stock in regular household waste.

## **Contact Information for Further Support**

For any inquiries or additional support regarding the MDT TIMBR Core Laminate Kit, please refer to the product documentation or visit the manufacturer's website.

Thank you for choosing the MDT TIMBR Core Laminate Kit. Your safety is our priority, and we hope you enjoy your new rifle stock.
