

# TIMBR Core Laminate Kit - MDT Chassis - TIMBR Core Kit - Laminate - Rem 700 - SA - RH - GMC

[Rifle Parts](#) > [Stock Parts](#) > [Rifle Stocks](#)

The MDT TIMBR CORE is what happens when you stop choosing between beauty and performance.

Crafted from solid walnut and reinforced with our proven aluminum micro-chassis, it blends old-world elegance with a precision-engineered core. The result is a rifle stock that looks traditional but performs with modern consistency and strength.

The integrated V-block bedding system locks your action firmly into place with zero guesswork. No bedding compound. No gunsmithing. Just torque it down and you're ready to shoot. The aluminum micro-chassis eliminates flex, ensures a precise action fit, and delivers repeatable groups every time you pull the trigger.

Each TIMBR CORE is crafted from genuine natural wood, making every stock completely unique. The grain patterns, color tones, and finish variations are one of a kind. This isn't just another off-the-shelf stock — it's your rifle stock, with character built into every detail.

Designed for both field and range use, the TIMBR CORE brings the warmth and balance of walnut to whitetail woods while maintaining the repeatability and structural integrity of metal. Ergonomic refinements inspired by our chassis systems — including optimized grip angles, adjustable LOP spacers, and improved geometry — enhance comfort and control without sacrificing the classic look and feel of a traditional wood stock.

An oversized forend channel accommodates heavier barrel profiles with ease, while integrated sling studs allow you to mount a bipod or carry strap effortlessly. Whether you're hiking deep into the backcountry or setting up prone at the range, the TIMBR CORE is built to perform without compromise.

# Safety Instruction Guide for MDT TIMBR Core Laminate Kit

## Introduction

Thank you for choosing the MDT TIMBR Core Laminate Kit. This guide provides essential safety instructions and guidelines to ensure the safe use of your rifle stock. It is crucial to follow these instructions carefully to maintain your safety and the performance of your product.

## General Safety Guidelines

- Ensure that the MDT TIMBR Core Laminate Kit is used only by individuals who are knowledgeable about firearms and their safe handling.
- Always follow local laws and regulations regarding firearm ownership and usage.
- Regularly inspect your rifle stock for any signs of wear or damage. If any issues are detected, discontinue use immediately and seek professional assistance.
- Store the rifle in a secure location, away from children and unauthorized users.
- Be aware of your surroundings when using the rifle, and ensure that the shooting area is clear of people and obstacles.

## Specific Safety Precautions for Use

- Always treat your firearm as if it is loaded, even when you believe it is not.
- Keep your finger off the trigger until you are ready to shoot.
- Use appropriate ear and eye protection when shooting.
- Ensure that the rifle stock is properly installed and secured before use.
- Avoid using the rifle in extreme weather conditions that could affect performance.
- Do not modify the MDT TIMBR Core Laminate Kit in any way that could compromise its safety or functionality.

## Instructions for Installation and Usage

### Installation

1. **Prepare Your Workspace:** Ensure that you are working in a clean, welllit area.
2. **Remove the Old Stock:** If applicable, carefully remove the existing stock from your rifle following the manufacturer's instructions.
3. **Check Components:** Inspect the MDT TIMBR Core Laminate Kit components to ensure everything is included and in good condition.
4. **Install the Stock:**
  - Align the action of your rifle with the integrated Vblock bedding system of the MDT TIMBR Core.
  - Securely fasten the stock to the action using the provided hardware. Ensure that all screws are tightened to the manufacturer's specified torque settings.
5. **Check Fit:** Ensure that the action is firmly locked into place with no movement.

### Usage

- Always follow safe shooting practices while using your rifle.
- Adjust the length of pull (LOP) spacers as needed for your comfort and control.
- Use the oversized forend channel to accommodate heavier barrel profiles.
- Attach any accessories, such as bipods or carry straps, to the integrated sling studs.

## **Disposal Instructions**

- Dispose of the MDT TIMBR Core Laminate Kit in accordance with local regulations regarding the disposal of wooden products and firearm components.
- Do not burn the stock, as it may release harmful substances.
- Contact your local waste management authority for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or product concerns, please refer to the customer service section of the MDT website or contact your local dealer. It is essential to have access to support for any questions about the MDT TIMBR Core Laminate Kit.

Thank you for prioritizing safety while using your MDT TIMBR Core Laminate Kit. By following these guidelines, you can enjoy the performance and beauty of your rifle stock with confidence.
