The MDT LSS GEN3 Base is where true customization begins. This stripped-down chassis provides the essential core of your rifle, giving you complete freedom to build exactly the setup you want. Whether you're configuring a competition rig, a lightweight hunting rifle, or a tactical platform, the LSS GEN3 Base is the foundation for a precision build tailored to your mission.

Start with the LSS GEN3 Base and select your preferred forend, buttstock interface, buttstock, and grip. Every component is your choice, allowing you to fine-tune ergonomics, balance, and performance from the ground up. This isn't a pre-defined kit—it's a blank canvas built for serious shooters who know what they want.

The flexibility doesn't stop at the initial build. Want to transform a lightweight hunting setup into a fully weighted competition rifle? Swap the forend and add weights. Need improved ergonomics or a different shooting position? Change the buttstock. As your shooting style evolves, your rifle evolves with you.

With compatibility across multiple forends, buttstock interfaces, and a wide range of accessories, the LSS GEN3 Base gives you the freedom to adapt without replacing your entire system.
