

Breacher Anti-Walk Trigger & Hammer Pins - AR-15, Dual Set-Screw

Over time, standard trigger and hammer pins, especially when paired with drop-in triggers, can start to move under recoil. What begins as slight play can quickly turn into inconsistent trigger feel, increased wear, or in worst cases, a malfunctioning fire control group.

The Breacher AR-15 Anti-Walk Pins are designed to prevent exactly that. Using a dual set-screw system on both sides, they lock the pins firmly in place once installed. No walking, no rotation, no shifting under load, just a stable, consistent setup you don't have to think about.

Keeping your trigger group properly aligned isn't just about feel, it directly affects reliability and longevity. Loose pins can lead to uneven stress on the receiver and trigger housing, something that's easily avoided with a proper retention system.

Manufactured from high-strength steel and built for repeated use, the Breacher pins are made to perform in everything from regular range use to high-intensity applications where reliability is critical. When equipment failure isn't an option, having your fire control group locked in place becomes a small detail that makes a real difference.

Installation is straightforward, the fit is clean, and once secured, they stay exactly where they should. A small upgrade, but one that protects your trigger, your receiver, and the overall performance of your rifle.

Attributes

- Name: Breacher Anti-Walk Trigger & Hammer Pins - AR-15, Dual Set-Screw
- Manufacturer: GERMAN TACTICAL SYSTEMS

Breacher AntiWalk Trigger & Hammer Pins AR15, Dual SetScrew

Safety Instruction Guide

Introduction

Thank you for choosing the Breacher AntiWalk Trigger & Hammer Pins for your AR15. This product is designed to enhance the reliability and performance of your firearm by preventing trigger and hammer pins from shifting during use. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always ensure that your firearm is unloaded before installing or handling the Breacher AntiWalk Pins.
- Follow all local laws and regulations regarding firearm modifications and safety.
- Keep this product out of reach of children and unauthorized users.
- Regularly inspect your firearm and its components for wear or damage.
- If you notice any irregularities in your trigger feel or performance, discontinue use and consult a qualified gunsmith.

Specific Safety Precautions for Use

- Ensure that the pins are installed correctly to prevent any movement during operation.
- Do not attempt to modify the pins or their installation method; doing so may compromise safety.
- Use only compatible firearms with the Breacher AntiWalk Pins; check manufacturer specifications.
- Always wear appropriate safety gear, including eye protection, when handling firearms.
- Be aware of your surroundings and ensure a safe shooting environment when using your firearm.

Instructions for Installation and Usage

1. Preparation

- Ensure your AR15 is unloaded and pointed in a safe direction.
- Gather necessary tools: a suitable screwdriver for the set screws.

2. Installation Steps

- Remove the existing trigger and hammer pins from your AR15.
- Align the Breacher AntiWalk Pins with the trigger and hammer assembly.
- Insert the pins into their respective holes in the receiver.
- Use the screwdriver to tighten the set screws on both sides of the pins.
- Ensure that the pins are locked firmly in place and do not move when pressure is applied.

3. PostInstallation Checks

- After installation, conduct a function check of your firearm to ensure proper operation.
- Confirm that the trigger and hammer move freely without obstruction.

4. Regular Maintenance

- Periodically check the set screws to ensure they remain tight and secure.
- Clean the pins as needed to remove any debris or buildup.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the product in regular household waste; check for local recycling programs or hazardous waste facilities.

Contact Information for Further Support

For any inquiries or concerns regarding the Breacher AntiWalk Trigger & Hammer Pins, please refer to the manufacturer's website or customer support resources.

Conclusion

The Breacher AntiWalk Trigger & Hammer Pins are a small but significant upgrade to your AR15, enhancing the stability and reliability of your trigger group. By following these safety instructions, you can ensure a safe and effective installation and usage experience. Always prioritize safety and responsible firearm handling.
