

ACE Trigger System for Glock - Certified Special Glock Trigger

[Handgun Parts](#) > [Trigger Group Parts](#) > [Trigger Parts](#) > [Triggers](#)

The TriggerTech Certified Special is a revolutionary modular trigger system (ACE System) designed to transform the shooting experience of your Glock. Developed after three years of intensive research, it aims to replace the typical "mushy" polymer trigger feel with the crisp, clean break of a high-end 1911.

Zero Creep Technology™: This patented technology eliminates all "creep" or grittiness before the break. The result is an incredibly clean, glass-like snap that improves accuracy and shooter confidence.

Two-Stage Design: Provides a clearly defined take-up and a razor-sharp wall, offering maximum control for every shot.

CLKR Technology™: Allows you to precisely adjust the pull weight from 2.5 lbs to 6.0 lbs in tactile increments. This adjustability does not compromise the reliability of the striker hit.

Enveloped Lever Safety™: An innovative safety design that removes the protruding center lever found on standard triggers. The entire trigger face acts as the safety, providing a smooth, uniform surface for your finger.

ACE Trigger System for Glock Safety Instruction Guide

Introduction

Thank you for choosing the ACE Trigger System for your Glock. This revolutionary modular trigger system is designed to enhance your shooting experience while ensuring safety and reliability. Please read this safety instruction guide carefully to ensure proper use and maintenance of the product.

General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Keep your firearm pointed in a safe direction at all times.
- Be aware of your surroundings and ensure the area is clear before shooting.
- Do not modify the trigger system or any other components of your firearm.
- Regularly inspect your trigger system for signs of wear or damage.
- Store your firearm and trigger system safely and securely, out of reach of children and unauthorized users.
- Follow all local laws and regulations regarding firearm use and safety.

Specific Safety Precautions for Use

- Ensure that you are familiar with the operation of your Glock and the ACE Trigger System before use.
- Only use ammunition that is compatible with your Glock.
- Do not use the trigger system if it is damaged or malfunctioning.
- Always wear appropriate safety gear, including eye and ear protection, when shooting.
- Avoid shooting in wet or slippery conditions that may affect your grip or control.
- If you experience any issues with the trigger system, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

Installation

1. **Ensure Safety:** Before beginning installation, ensure that your firearm is unloaded and pointed in a safe direction.
2. **Remove the Old Trigger:** Follow the manufacturer's instructions to safely remove the existing trigger from your Glock.
3. **Install the ACE Trigger System:**
 - Align the ACE Trigger System with the trigger housing of your Glock.
 - Securely fasten it according to the manufacturer's guidelines.
4. **Adjust the Pull Weight:** Utilize the CLKR Technology™ to adjust the pull weight between 2.5 lbs to 6.0 lbs as desired.
5. **Test the Trigger:** Before using your firearm, perform a function check to ensure the trigger operates correctly.

Usage

- Practice proper trigger discipline at all times.
- Use the twostage design to feel the takeup and the wall before breaking the shot.
- Regularly practice to become familiar with the trigger's characteristics and responsiveness.
- Always clean and maintain your trigger system according to the manufacturer's recommendations.

Disposal Instructions

- Dispose of the ACE Trigger System in accordance with local regulations regarding electronic and firearm components.
- Do not dispose of the trigger system in regular household waste.
- Contact your local waste management facility for guidance on proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding safety or performance issues with the ACE Trigger System, please reach out to the designated support channels provided by the manufacturer.

Conclusion

The ACE Trigger System for Glock is designed to enhance your shooting experience while prioritizing safety. By following the guidelines and precautions outlined in this manual, you can ensure safe and effective use of your new trigger system. Thank you for your commitment to responsible firearm ownership.
