

Accessories - ADI - Angle Degree Indicator

[Shooting Accessories](#) > [Range Gear](#) > [Cosine Indicators](#)

The Angle Cosine Indicator (ACI) is an indispensable tool for long-range precision shooters and snipers when engaging targets at uphill or downhill angles. It allows you to effortlessly calculate and compensate for the effects of gravity on your bullet's trajectory.

Additionally, the integrated bubble level ensures your firearm is perfectly leveled, eliminating cant error.

Universal Integration: This ERATAC® mount attaches seamlessly to our UNIVERSAL-Interface without requiring any repositioning or adjustments to your riflescope.

Unobstructed Visibility: The ACI is strategically positioned so that the red indicator needle remains fully visible while you are aiming—even when utilizing scopes with left-side illumination controls.

Clear Turret View: Thanks to the side-mounted bubble level, your elevation turret always remains completely within your line of sight.

Mil-Spec Durability: Built to military standards, the Mil-Spec version is fully waterproof for up to 35 minutes at a depth of 1 meter.

Accessories ADI Angle Degree Indicator Safety Instructions

Introduction

Thank you for choosing the Accessories ADI Angle Degree Indicator (ADI). This device is designed to assist longrange precision shooters and snipers in engaging targets at various angles. To ensure safe and effective use of the ADI, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- **Product Safety:** This product is designed to be safe for use. However, it is essential to follow the guidelines to avoid any potential risks.
- **Enhanced Recalls:** In the event of a safety concern, recall notices will be provided. Ensure you stay informed about recalls.
- **Online Shopping:** Whether purchased online or instore, this product meets all safety requirements.
- **Special Consumer Focus:** Extra precautions are necessary for vulnerable groups, including children. Keep this product out of reach of children.
- **EU Contact Point:** For safety inquiries, please refer to the designated EU contact point provided by the manufacturer.
- **Rapid Alerts:** Stay updated on product safety through the EU Safety Gate system.

Specific Safety Precautions for Use

- **Avoid Extreme Conditions:** Do not use the ADI in extreme temperatures or conditions that may affect its performance.
- **Check for Damage:** Before each use, inspect the ADI for any signs of damage or wear. Do not use if damaged.
- **Proper Handling:** Handle the ADI with care to avoid dropping or impacting it, which may affect its accuracy.
- **Use as Intended:** The ADI is designed for use with firearms. Do not use it for any other purpose.
- **Follow Firearm Safety Rules:** Always follow standard firearm safety rules when using the ADI.

Instructions for Installation and Usage

1. Installation:

- Ensure your firearm is unloaded before beginning installation.
- Attach the ADI to the UNIVERSALInterface of your riflescope as per the manufacturer's instructions.
- Ensure the ADI is securely mounted and not obstructing your view.

2. Usage:

- Aim your firearm at the target using the scope.
- Observe the red indicator needle on the ADI to determine the angle of elevation or depression.
- Make necessary adjustments to your aim based on the angle indicated.
- Use the integrated bubble level to ensure your firearm is perfectly leveled.

Disposal Instructions

- Dispose of the ADI responsibly. Do not dispose of it in regular household waste.
- Follow local regulations for the disposal of electronic devices and accessories.
- If applicable, take the ADI to a designated recycling facility.

Contact Information for Further Support

For any questions or concerns regarding the Accessories ADI Angle Degree Indicator, please refer to the manufacturer's contact information provided with your product.

Stay safe and enjoy your shooting experience with the Accessories ADI Angle Degree Indicator!
