

Powder Funnel for Dillon Powder Measure - Powder Funnel for Dillon Powder Measure (.45 ACP)

This is an essential component when using any bullet feeder system with your Dillon powder measure. It expands and preps the brass correctly so that the bullet sits perfectly and won't tip over as the shellplate indexes. The tip of the funnel features a slightly oversized ring for smoother operation and reduced case wobble. It provides just the right amount of expansion without over-flaring or putting unnecessary stress on your brass.

Powder Funnel for Dillon Powder Measure Safety Instructions

Introduction

Thank you for choosing the Powder Funnel for Dillon Powder Measure (.45 ACP). This product is designed to enhance the performance of your bullet feeder system, ensuring safe and efficient operation. Please read this safety instruction guide carefully to ensure proper use and to minimize any risks associated with the product.

General Safety Guidelines

- Always use the product according to the manufacturer's instructions.
- Inspect the product for any visible damage before use. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Regularly check for product recalls on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the funnel is securely attached to the Dillon powder measure before use.
- Do not exceed the recommended capacity of the funnel to prevent spills and accidents.
- Always handle brass and bullets with care to avoid injury.
- Use appropriate personal protective equipment (PPE) such as safety glasses when operating the powder measure.
- Avoid using the product in wet or damp conditions to prevent slipping and electrical hazards.

Instructions for Installation and Usage

1. Installation:

- Unpack the Powder Funnel from its packaging.
- Inspect the funnel for any damage or defects.
- Align the funnel with the Dillon powder measure and gently push it into place until it fits snugly.
- Ensure that the funnel is securely attached before proceeding to use.

2. Usage:

- Prepare your brass by ensuring it is clean and free of debris.
- Place the funnel over the brass casing in the shellplate.
- Fill the funnel with powder as per your loading requirements.
- Allow the powder to flow smoothly into the brass casing. The oversized ring at the tip of the funnel will help reduce case wobble.
- Once filled, remove the funnel carefully and proceed with your reloading process.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste. Check for recycling options available in your area.
- If the product is damaged or no longer usable, ensure it is disposed of safely to avoid any hazards.

Contact Information for Further Support

For any safety inquiries or support regarding the Powder Funnel for Dillon Powder Measure, please refer to the manufacturer's contact information provided with the product packaging or visit the manufacturer's website.

Thank you for your attention to these safety guidelines. Enjoy using your Powder Funnel for Dillon Powder Measure safely and effectively!
